

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

"We consider Mr. Brice's exhaustive work a valuable addition to the literature of the profession."—SATURDAY REVIEW.

"Mr. Seward Brice has done a great service to the cause of Company Jurisprudence by his new recension of what was from the first a text book on the Law of Corporations. He has gone far towards a Digest of that Law in its relation to the Doctrine of Ultra Vires; the second edition of his most careful and comprehensive work commended with equal confidence to the English, the American, the Colonial Practitioner, as well as to the scientific Jurist."—*Law Journal and Review*.

"A guide of very great value. Much information on a difficult and attractive subject has been collected and arranged in a manner which will be of great assistance to the seeker after the law on a point involving the powers of a company."—*Law Journal*.

SEVERAL years have elapsed since the publication of a General Catalogue of Law Books similar to the present volume. The publishers, in compiling this edition, have omitted the various Treatises and Books of Practice that have become out of date and obsolete, but have endeavoured to include all the modern Law Works of any note. American Works are not included, but a catalogue of American Law Books and Reports may be obtained of the Publishers. A carefully compiled Index of Subjects will be found at the end of the book.

It is hoped that the Table of Regnal Years, (p. vii.,) the Chronological List of Reports, (p. x.,) and a very full List of Abbreviations used in references, (p. xxviii.,) will be found useful to the legal profession.

Estimates for Libraries to any amount promptly furnished, and orders executed. It is particularly requested that letters be plainly addressed to the undersigned.

(d) The Digest or Pandects are divided into 50 Books ; each Book is divided into Titles, and each Title into Laws, and the Laws generally into Parts or Paragraphs. The first paragraph is not numbered, and is usually quoted by the abbreviation *in pr.* (*in principio.*) The last paragraph is sometimes quoted by the word *in fine*, or § *ult.*, (*paragraphus ultimus.*) The Digest is variously quoted by the Letters D. or P., or II., or ff. ff. is supposed to be a corruption of the D. with a stroke through the middle, or perhaps of the Greek II.

The ancient mode of quotation was by mentioning the initial words of the Law and of the paragraph, with the initial words of the title. This made a reference to the General Index necessary, *e.g.*, *L. Profectitia*, § *si Pater*, *D. de jure dotium*, or in reversed order, *D. de jure dotium* *L. Profectitia*, § *si Pater*. Afterwards the quotation was *L. Profectitia* 5, § *si Pater* 6, *D. de jure dotium* ; and latterly, *L. 5*, § 6,

D. de jure dotium ; or, more correctly, using the letters fr. instead of L., since the passages were not laws, but fragments or excerpts from the writings of the Jurisprudents, fr. 5, § 6, *D. de jure dotium*. The modern mode avoids all reference to the words. It is thus :—fr. 5, § 6, D. 23, 3 ; or in reversed order, D. 23, tit. 3, fr. 5, § 6 ; or shortly, D. 23, 3, 5, 6, *i.e.*, Digest, Book 23, tit. 3, law 5, paragraph 6.

(i) The Institutes of Justinian are divided into four Books,—each Book is divided into Titles, and each Title into Paragraphs, of which the first, described by the letters *pr.*, or *princip.*, is not numbered. The old method of citing the Institutes was to give the commencing words of the paragraph and of the title; e.g., § *si adversus, Inst. de Nuptiis*. Sometimes the number of the paragraph was introduced, e.g., § 12, *Si adversus, Inst. de Nuptiis*. The modern way is to give the number of the book, title, and paragraph, *Inst. I., 10, 12*; i.e., *Inst. Lib. I. tit. 10, § 12*.

(*m*) The Novels, or New Constitutions, are explanatory of the Code. The greatest part of these Novels was composed in Greek, owing to the seat of empire being then in Constantinople. Some, however, were published in Latin, and have been noticed by Antonius Augustinus. There are four translations of the Novels. The Novels are quoted by their respective numbers, chapters, and paragraphs, *e.g.*, Nov. 89, c. 9, § 1.

After Justinian's death some part of his Novels, to the number of 168, were collected and reduced into one volume, together with 13 of the Greek Edicts, which make up the fourth and last division of the *Corpus Juris Civilis*.

Acts of Parliament are printed shortly after they have received the Royal Assent; each Act is numbered or chaptered in the order in which it is printed; and each year or session has a new series of numbers or chapters. There are three descriptions of Acts of Parliament, and three distinct series of numbers or chapters in each year or session.—All the Acts which are of a public and general

nature are classed by themselves, and are named PUBLIC ACTS; to which belong the first series of numbers or chapters in each year. The Acts which are of a public nature, but limited in their operation, such as relate to turnpike roads, &c., are denominated LOCAL ACTS, to which belong the second series of numbers or chapters. The third class of Acts consists of such as are of a more private nature, and relate to enclosures of common lands, family estates, naturalisation, dissolution of marriages, &c., and are called PRIVATE ACTS.

Public and Local Acts are sold singly, Public Acts at 2*d.* and Local Acts at 3*d.* per sheet, when in print, and may be had of the Publishers of this Catalogue.

The Public General Acts have been collected, and published under the title of "THE STATUTES AT LARGE," by several editors. There are three editions in 4*to*, bearing a uniform appearance, and commencing with Magna Charta. The most complete is by Mr OWEN RUFFHEAD; the next by Serjeant RUNNINGTON; and the least extensive collection is by Messrs TOMLINS and RAITHEY. These are continued annually from the period of the Union with Ireland, 1801, by one series, edited to 1851, by N. SIMONS, Esq., and to 1864 by G. K. RICKARDS, Esq. There are also two editions in 8*vo*, commencing with Magna Charta, the best by Mr DANBY PICKERING, and the other by Mr RAITHEY: both are continued annually by one series similar in size. The royal 8*vo* edition of the Statutes, commonly called the Twopenny Edition, commences with the 1st Will. IV., and is published in numbers at 2*d.* each; it does not contain the Tables of Local and Private Acts which are attached to the other editions.

STEVENS & HAYNES,

BURN'S Justice of the Peace and Parish Officer; the 30th edit., 5 vols., entirely remodelled and brought down to the present time.

. The last edition of Burn's Justice was published in 1844, to which was added a Supplement by Mr WISE, continuing the law to 1852. Since that period no attempt of any magnitude has been made to reconstruct and properly arrange, with all the important alterations, the vast mass of law interesting to the Magistrate and the Parish Officer. The Publishers announce the active preparation of an entirely New Edition, reduced, by the omission of obsolete matter, to five volumes, and carefully brought down to the time of publication by five Barristers of experience, under the able superintendence of J. B. MAULE, Esq., Barrister-at Law.

Orders for the New Edition of Burn's Justice sent to the Publishers of this Catalogue will ensure the delivery of copies immediately after Publication.

UCCESSION DUTY ACT

1853

(16 & 17 VICTORIA, CAP. 51.)

WITH

THE DECISIONS AND NOTES.

BY

ALFRED HANSON, ESQ.,

OF THE MIDDLE TEMPLE, BARRISTER-AT-LAW.

PREFACE.

EARLY twelve years have now elapsed since the
cession Duty Act came into operation, and ex-
perience has shown that it is, upon the whole, singu-
ly well adapted to effect the purpose for which it
is passed,—of imposing upon real property and
deceased personal estate accruing to any person by
reason of death, the same liability to duty which the

[THE SUCCESSION DUTY ACT.]

(*Preface continued.*)

Legacy Duty Acts had previously imposed upon personal property derived under a will or intestacy.

It was not, however, to be expected that any legislative enactment, the subject of which was so extensive, and the object to a great extent novel and difficult, could be so framed as entirely to obviate objection; and, accordingly, the cases which have been brought before the Courts of Law and Equity, with the view of ascertaining the right construction to be put upon the different provisions of the Act, have been neither few nor unimportant.

In most of the cases which have come under the consideration of the English courts, the Author has been employed as junior counsel for the Crown, and he ventures to hope that the attempt which he has made in the following pages to collect and classify the decisions to which the Act has given rise, under the various sections to which they relate, and to add such notes as appear necessary to elucidate its meaning, may, notwithstanding the existence of more elaborate treatises on the subject, be not altogether useless or unacceptable to the profession and the public at large.

NOTICE:

Many Persons are in the habit of addressing Letters for well-known Firms and Individuals to "London" only; but this practice not infrequently occasions delay in such Letters reaching their rightful owners. In all cases, however well the Firm or Individual for whom a Letter is intended may be known, it is most essential, to ensure its correct delivery, that the street or locality in which they reside should form a part of the address.

STEVENS & HAYNES,

SOME RARE LAW BOOKS.

[From THE ALBANY LAW JOURNAL.]

LAW books are generally not things of beauty. There is nothing particularly gratifying to the esthetic department of the human organism in the conventional typography and sheep-skin. Some of our publishers give considerable attention to the mechanical execution of their books, and deserve and receive a good degree of credit therefor. But, after all, their labours seldom please the eye. In most marked contrast to even the very best of our books, are a series of law books that have been recently issued by Messrs. STEVENS and HAYNES, of London. They are reprints of some of the scarcest of the Old English Reports, and in their mechanical execution would delight the heart of Aldus, Manutius, Thuanus, or any other admirer of elegant editions. The black letter type of the originals is faithfully reproduced, the curious old style spelling and interchange of letters have been closely followed, while the rich antique calf covers are, no doubt, superior to anything that served to encase the original Reports. These editions have been carefully prepared, and some of the volumes have been enriched with notes added in MS. to some copy of the original by its learned owner generations ago.

This enterprise of Messrs. STEVENS and HAYNES is a matter of universal interest, and appeals to every lover of elegant books. The works which they have reproduced are those which were the scarcest, and for copies of which the most exorbitant prices were demanded. The following is a brief description of the matter of these volumes.

The first in this series of exquisite reprints are *Bellewe's Cases Temp. Richard II.*, which bears the following title: "*Les Ans Dv Roy Richard Le Second Collect' Ensembl' hors de les Abridgments de Statham, Fitzherbert et Brooke per Richard Bellewe de Lincolns Inne, 1585.*" At London, Imprinted by Robert Robinson dwelling in Fewter lane, neere Holborne." Mr. Wallace, in his "*Reporters*," says, "*Bellewe's Cases T. Richard II.* is very rare. Mr. Green, whose collection of reporters is complete, has a copy, the only one I ever saw, except the copy that I have myself." *Bellewe's Cases* have been sometimes designated as the Year-book of Richard II., and they bridged the chasm existing between the third part of the year-books and the Year-book of Henry IV. In his Epistle "*To the Students of the Common Lawes of this Realme*," the author discourses very quaintly of "howe dangerous it is by setting our accions on ye publike stage to submitte the valuation of our selves to ye censure of a multitude." Here is a paragraph from the same Epistle, which loses much of its quaintness in the modern type in which we dress it: "*Now whiles I considered hereupon and poysed them in the ballance of myne owne insufficiency, I remayned altogether fearefull and discouraged and then withall resolved to reserve this simple labour of myne to my owne private use for which I first made it. But calling to remembrance the disposition of the persons with whom specially I had to deale, beyng men with myndes tempered and qualified with studyes of best accompt and the work itself not myne but my collection, adding thereunto the earnest persuasions of some of my best deserving friends, I have adventured, as you see, under hope of your curteous acceptance, to present you therewithal not doubting, but that as *Learning hath no enemy but ignorance*, so the ignorant, envious or opinionate Carper shall have no such adversary as the learned, nor this my simple travayl find better defense, then of those whose experience teaches them that*"

BELL YARD, TEMPLE BAR.

Humanum est Errare, know how farre easier it is to find a fault, then to doe that which shal be without fault."

The second in this rare list is "Choyce Cases in Chancery." A work which Mr. Wallace in his "Reporters" said was so rare, that except the copies in the Temple Library and the Library of Lincoln's Inn, he had never seen more than one copy of it anywhere. The first half of the volume is devoted to "The Practice of the High Court of Chancery Unfolded," and the "Choyce Cases" fill the last half. Speaking of the cases, Mr. Wallace said: "Like Lombard, Tothill, and a few similar law works, this volume is one which those great cases that occur from time to time and stimulate inquiry into the very foundations of legal science, will occasionally call forth, and it ought, therefore, to be in every public library."

"Choyce Cases in Chancery" contains about two hundred and fifty-six cases, the greater number of which bear date from 19 to 26 Eliz., 1576 to 1583. The Chancellors during the period of these reports were Nicholas Bacon, Thomas Bromley, and Lord Ellesmere. If the composer traced the path of truth so fully as he claimed to have done, the courts of those early times held no uncertain doctrine about contempts, for we read on this subject, "If any offences or contempt be committed against the Court or against the great seal by word or deed upon serving the process, then upon affidavit then made, the party is there snapped up and committed immediately without any examination of him at all; for better it were (if the affidavit should prove untrue) to suffer that mischief to one particular person, then the inconvenience that such an high Court of Justice (as is the Chancery) or process or authority thereof should be condemned."

The next work in this goodly company is "Cunningham's Reports," the imprint upon which takes us back over a hundred years, and the cases in which bear date of the time of George the Second and Hardwicke.

Not the least valuable and interesting portion of this volume is that devoted to "A Proposal for rendering the Laws of England Clear and Certain"—a unique and instructive chapter on law reporting, and in behalf of an authorized body of Reporters. After a hasty glance at the Civil law, and the Institutes, Digests, and Code of the Romans, the author gives a rapid history of the English reporters from the Year-books of Edward III. to the day of the writer. There are many sensible and forcible suggestions and remarks thrown in by the way, which we had marked for quotation, but our space will only permit a few sentences from the author's views as to a good reporter. "A reporter thus appointed," he saith, "should have a liberal education; understand both the theory and practice of the law; be able clearly to comprehend the reasoning of the judges, and be ready at writing down what he hears in short-hand or otherwise; and, afterwards, properly digesting it. And, to do this effectually, the matter should be methodised in such a manner, the several facts so disposed, and the whole so perspicuous and clear, that all persons may easily understand the report. All addresses to the passions, all glosses and ornaments of counsel, which they may deem necessary in their pleadings, should find no place in the state of the case. The reporter, in telling the story, ought not to speak as one of the counsel concerned in the cause, but, as it were, as a judge. . . . An able reporter should likewise be so well versed in our laws, as not to be a stranger to the greatest part of what is cited out of the books; for,

STEVENS. & HAYNES,

unless he thoroughly conceives what comes from the bench and bar, he will be no more able to execute this office with success, than one who was ignorant of the principles of astronomy or anatomy would be able justly to report a lecture in either of those sciences. 'It is impossible,' says Lord Coke, 'to make a just and true relation of any thing he understand not.' Another observation seems so pertinent to the times, that we will not exclude it: "After the Revolution, and during the reigns of King William, Queen Anne, King George I., and his late Majesty, many reports have been published, most of which 'let open the windows of the law to let in the glad some light, whereby the reason thereof may be clearly discerned,' and tho' 'some of them, as Justice Shelley said, might be compared to *Banbury* cheeses, whose superfluities being pared away, there would not be enough left to bait what Lord Hale called the *Mousetrap of the Law*; yet, probably, the meanest of them may, like the little birds, add something toward building the eagle's nest."

"Cooke's Reports" come next in this "Grand Companie," and in a dress quite in keeping with the rest. Sir George Cooke was Chief Prothonotary of the Common Bench, and a very able Chief Prothonotary and reporter he was declared to be, in *Palmer v. Edwards*, 3 Wilson, 184. Messrs. STEVENS and HAYNES were induced to select this report, as the next in their series, by reason partly of its great scarcity, and partly by having become possessed of a copy formerly belonging to Mr. Justice Nares, and containing numerous MS. notes. These notes, it is said, appear to have been partly his own, and partly copied from notes made by Chief Justice Eyre. Many of these notes are elaborate, and all add greatly to the value of the volume.

"Brooke's New Cases" Temp. Henry VIII., Edward VI., and Mary, though oldest in time, is the next in order of publication of this series of Old English Reports. It was first published in 1578, seven years prior to "Bellewe's Cases," and was compiled by the said Bellewe. There is much in it of the quaint and curious, as well as of the instructive, but we have not space at this time to notice it further.

"William Kelynge's Reports" in Chancery and King's Bench is the sixth of the series, and the publishers state that they have reproduced it "to enable Libraries and the Profession to complete their series of Early Reports, and which, owing to the great scarcity of the Work, many hitherto have been unable to do."

The most recent issue of this goodly procession is "Sir John Kelyng's Crown Cases." There have been two editions of these cases, the first, published in London in 1708, folio, and the second, Dublin, 1789, octavo. Neither of these contained all the cases collected by Sir John Kelyng and left in MS. The omitted cases are included in this edition, and, for the purpose of readily distinguishing them, are printed in red ink. This is in some respects the most entertaining of these Reprints, as the interest attaching to criminal law and cases is more dramatic than is to be found in the reading of civil cases. Among other things, the volume contains the Resolutions of the Judges called together at the restoration of Charles II. to determine the law and proceedings that should govern in the trial of the persons apprehended for the murder of Charles I. There are a number of these "resolves," some of which are very curious.

We believe this to be the most elegant series of law books ever published, and the enterprise of the publishers deserves and will receive a very hearty recognition. The series is to be continued by reprints of other old and scarce works from time to time.

By HENRY THOMAS BANNING, M.A., of the Inner Temple, Barrister-at-Law. 1 vol. 8vo. 1877. 16s.

"In this work Mr. Banning has grappled with one of the most perplexing branches of our statute law. The law, as laid down by the judicial decisions on the various Statutes of Limitations, is given in thirty-three short chapters under as many headings, and each chapter

BELL YARD, TEMPLE BAR.

BANNING on Limitations—(*continued*).

treats of a sub-division of one of the main branches of the subject; thus we have ten chapters devoted to real property. This arrangement entails a certain amount of repetition, but is not without its advantages, as the subject of each chapter is tolerably exhaustively treated of within the limits of a few pages. We think that in this respect the author has exercised a wise discretion. So far as we have tested the cases cited, the effect of the numerous decisions appears to be accurately given—indeed, the author has, as we are informed in the preface, 'so far as is consistent with due brevity, employed the *ipsissima verba* of the tribunal;' and the cases are brought down to a very recent date. . . . The substance of the book is satisfactory; and we may commend it both to students and practitioners."—*Solicitors' Journal*.

"Mr. Banning's 'Concise Treatise' justifies its title. He brings into a convenient compass a general view of the law as to the limitation of actions as it exists under numerous statutes, and a digest of the principal reported cases relating to the subject which have arisen in the English and American Courts."—*Saturday Review*.

"Mr. Banning has adhered to the plan of printing the Acts in an appendix, and making his book a running treatise on the case-law thereon. The cases have evidently been investigated with care and digested with clearness and intellectuality."—*Law Journal*.

"No public library in the world, where English law finds a place, should be without a copy of this edition of Bellewe."—*Canada Law Journal*.

"We have here a *fac-simile* edition of Bellewe, and it is really the most beautiful and admirable reprint that has appeared at any time. It is a perfect gem of antique printing, and forms a most interesting monument of our early legal history. It belongs to the same class of works as the Year Book of Edward I., and other similar works, which have been printed in our own time under the auspices of the Master of the Rolls; but is far superior to any of them; and is in this respect highly creditable to the spirit and enterprise of private publishers. The work is an important link in our legal history; there are no Year Books of the reign of Richard II., and Bellewe supplied the only substitute by carefully extracting and collecting all the cases he could find, and he did it in the

STEVENS & HAYNES,

most convenient form—that of alphabetical arrangement in the order of subjects—so that the work is a digest as well as a book of law reports. It is in fact a collection of cases of the reign of Richard II., arranged according to their subjects in alphabetical order. It is, therefore, one of the most intelligible and interesting legal memorials of the Middle Ages. The publishers say, 'The numerous inquiries for "Bellewe's Cases," the rarity of the book, and the exorbitant price which copies have realised, led us to believe that a reprint would be acceptable to members of the legal profession, and to librarians who desire to possess a complete and perfect series of English law reports.'

"And we may add, that it is a book which ought to be in the library of every scholar or student of history, for it contains, in a convenient and intelligible form, a complete epitome of the whole body of our mediæval laws and constitutions, which will be of great use as illustrating the history of the age; and those who cannot be expected to possess the Year Books at large, may be expected to possess this valuable little work, which will supply any ordinary scholar or student with sufficient and most interesting information as to our laws and usages in the Middle Ages. Moreover, as the book is printed *fac-simile*—although in clear and luminous type—with all the ancient abbreviations, it will afford a valuable introduction to our ancient records, and in that view it will be of use to those who have occasion to consult them, and require familiarity with ancient contractions. Every one knows how much the value of these ancient records is now appreciated; such works as these form, in fact, the most valuable memorials of our early history."—*Law Times*.

BRICE (Seward), The Law Relating to Public Worship ; with special reference to Matters of Ritual and Ornamentation, and the means of securing the due observance thereof. And containing in extenso, with notes and references, the Public Worship Regulation Act, 1874 ; the Church Discipline Act ; the Various Acts of Uniformity ; the Liturgies of 1549, 1552, and 1559, compared with the present Rubric ; the Canons ; the Articles ; and the injunctions, advertisements, and other original documents of legal authority. By SEWARD BRICE, LL.D., of the Inner Temple, Barrister-at-law. 8vo. 1875. 28s.

"To the vast number of people who in various ways are interested in the working of the Act, Mr. Brice's volume cannot fail to be welcome. It is well conceived and carefully executed."—THE TIMES.

"Dr. Brice's book upon the law relating to public worship has been, as may be supposed, specially framed for the use of clergymen, churchwardens, and others, interested in the regulation of our Church services. Here there is condensed in one volume all the material for the guidance and control of public worship, and both ecclesiastics and laymen can, by aid of the index, find out at a glance the exact state of the law as interpreted by the highest authorities upon any given point ; and churchwardens and others can ascertain the exact steps which should be followed by those who desire to put a stop to breaches of the law. The work deserves, and will no doubt have, a very extensive sale."—Standard.

"To law students the very clear exposition of the various statutes relating to rites and sacraments, ceremonials, vestments, ornamentation, ecclesiastical remedies and punishments, the jurisdiction of the ordinary, &c., will be of the greatest value, as well for the methodical arrangement which characterises it, as for the erudition displayed in the comments, and the clearness and lucidity of the style in which they are couched. Several authoritative enactments relating to public worship, and the various editions of the articles, are given in extenso ; and the numerous cases incidentally alluded to throughout the volume are alphabetically arranged and tabulated."—Morning Post.

"Dr. Brice's large and learned work is a very complete manual for its purpose."—Guardian.

"Dr. Brice's book contains a great mass of information on ecclesiastical matters, which must at all times be valuable for reference."—The Record.

"We can confidently recommend the treatise to all those who are concerned in the subject. To students it will be useful as a compendium of ecclesiastical law. To lawyers it will be a handy book of reference.

BELL YARD, TEMPLE BAR.

BRICE on Public Worship—(continued).

To clergymen and parishioners it will be a valuable guide, and may perhaps prevent some useless litigation. An index of twenty-two pages, and a table of upwards of 300 cases, testify to the labour bestowed upon this treatise; but it is not a mere compilation, and only an author who has thoroughly mastered the subject could have written the book."—*Law Journal*.

"The purpose of Mr. Seward Brice's treatise on 'The Law Relating to Public Worship' is, as stated in the preface, to give 'a full exposition of the Law of Public Worship, in so far as it concerns the external forms and cultus enforced or merely permissible by the rules of the Church of England,' special prominence being assigned to the subjects of ornaments, ceremonial, and vestments. The work is very carefully and thoroughly done, and includes not only a clear account both of the substantive law and of the means of enforcing it, but the text of the pertinent statutes and of other documents bearing upon the matters discussed."—*Daily News*.

"This excellent compilation of the law relating to a subject of very great interest and importance . . . it is well arranged; the practitioner will find all the material ready to his hand, Mr. Brice having spared no pains in describing the procedure as elucidated by the decisions of the Privy Council. In Mr. Brice's book, the ecclesiastical practitioner and the church authorities will be provided with a reliable guide to church law under the Act of 1874."—*Law Times*.

BRICE (Seward), a Treatise on the Doctrine of Ultra Vires: being an Investigation of the Principles which limit the Capacities, Powers, and Liabilities of Corporations, and more especially of Joint Stock Companies. 2nd edition. By SEWARD BRICE, M.A., LL.D., London, of the Inner Temple, Barrister-at-Law. One Volume of 1000 pages, royal 8vo. 1877. 42s.

"Despite its unpromising and cabalistic title, and the technical nature of its subject, it has so recommended itself to the profession that a second edition is called for within three years from the first publication; and to this call Mr. Brice has responded with the present volume, the development of which in excess of its predecessor is remarkable even in the annals of law books. Sixteen hundred new cases have been introduced, and, instead of five hundred pages octavo, the treatise now occupies a thousand very much larger pages. This increase in bulk is partly due to the incorporation with the English law on the subject of the more important American and Colonial doctrines and decisions—a course which we think Mr. Brice wise in adopting, since the judgments of American tribunals are constantly becoming more frequently quoted and more respectfully considered in our own courts, particularly on those novel and abstruse points of law for which it is difficult to find direct authority in English reports. . . . Some of the much disputed questions in regard to corporations, on which legal opinion is still divided, are particularly well treated.

STEVENS & HAYNES,

BRICE ON *Ultra Vires*—(continued).

Thus with reference to the authority claimed by the Courts to restrain corporations or individuals from applying to Parliament for fresh powers in breach of their express agreements or in derogation of private rights, Mr. Brice most elaborately and ably reviews the conflicting decisions on this apparent interference with the rights of the subject, which threatened at one time to bring the Legislature and the Courts into a collision similar to that which followed on the well-known case of *Ashby v. White*. . . . Another very difficult point on which Mr. Brice's book affords full and valuable information is as to the liabilities of Companies on contracts entered into before their formation by the promoters, and subsequently ratified or adopted by the Company, and as to the claims of promoters themselves for services rendered to the inchoate Company. . . . The chapter on the liabilities of corporations *ex delicto* for fraud and other torts committed by their agents within the region of their authority seems to us remarkably well done, reviewing as it does all the latest and somewhat contradictory decisions on the point. . . . On the whole, we consider Mr. Brice's exhaustive work a valuable addition to the literature of the profession."—SATURDAY REVIEW.

"The doctrine which forms the subject of Mr. Seward Brice's elaborate and exhaustive work is a remarkable instance of rapid growth in modern Jurisprudence. His book, indeed, now almost constitutes a Digest of the Law of Great Britain and her Colonies and of the United States on the Law of Corporations—a subject vast enough at home, but even more so beyond the Atlantic, where Corporations are so numerous and so powerful. Mr. Seward Brice relates that he has embodied a reference in the present edition to about 1,600 new cases, and expresses the hope that he has at least referred to 'the chief cases.' We should think there can be few, even of the Foreign Judgments and Dicta, which have not found their way into his pages. The question what is and what is not *Ultra Vires* is one of very great importance in commercial countries like Great Britain and the United States. Mr. Seward Brice has done a great service to the cause of Comparative Jurisprudence by his new recension of what was from the first a unique text-book on the Law of Corporations. He has gone far towards effecting a Digest of that Law in its relation to the Doctrine of *Ultra Vires*, and the second edition of his most careful and comprehensive work may be commended with equal confidence to the English, the American, and the Colonial Practitioner, as well as to the Scientific Jurist."—*Law Magazine and Review*.

"It is the law of Corporations that Mr. Brice treats of (and treats of more fully, and at the same time more scientifically, than any work with which we are acquainted) not the law of principal and agent; and Mr. Brice does not do his book justice by giving it so vague a title."—*Law Journal*.

"Mr. Archibald Brown deserves the thanks of all interested in the science of law, whether as a study or a practice, for his edition of Herr von Savigny's great work on 'Obligations.' The edition of the 'Obligations' best known in England, the only one available to those who are not German scholars, is the French translation by M. Gozon. Mr. Brown has undertaken a double task—the translation of his author, and the analysis of his author's matter. That he has succeeded in reducing the bulk of the original will be seen at a glance; the French translation consisting of two volumes, with some five hundred pages apiece, as compared with Mr. Brown's thin volume of a hundred and fifty pages. At the same time the pith of Von Savigny's matter seems to be very successfully preserved, nothing which might be useful to the English reader being apparently omitted.

"The new edition of Savigny will, we hope, be extensively read and referred to by English lawyers. If it is not, it will not be the fault of the translator and epitomiser. Far less will it be the fault of Savigny himself, whose clear definitions and accurate tests are of great use to the legal practitioner."—*Law Journal*.

"Mr. Brown has succeeded in the first essential, that of brevity. He has compressed into a wonderfully small compass a great deal of matter. Our impression is that the work has been carefully executed."—*Solicitors' Journal*.

"For the purposes of working law students nothing could be more useful. Besides explaining every legal term, new and old, the author gives short notes upon points of law, which are excellent specimens of clear and compressed writing. References to cases and statutes are abundant, as also to the best text writers on each subject. As an example of Mr. Brown's resolute endeavour to reduce even the vaguest and widest portions of our law to some clear first principles, we may refer readers to the title 'Fraud,' where they will find nine columns of compressed learning scientifically arranged. French and Roman law terms and doctrines are also carefully explained, while even the growth and cha-

acter of the British Constitution are shortly but clearly set out under their proper headings. As already stated, the book is, for students, invaluable; but members of the profession will also find it useful for ready reference; and certainly the public could find a great deal of curious information in its pages. The style and execution are worthy of the great subject chosen, and more than this cannot be said in its favour. The printing is excellent for the purpose of finding any point that is sought; the general get-up of the book could not be better."—*The Law*.

"In a modest preface Mr. Brown introduces us to a rather ambitious work. He has endeavoured to compress into less than four hundred pages the whole law of England, and has evidently bestowed much pains on the execution of the task. He does not, however, aim at anything higher than rendering a service to students preparing for the Bar or for the lower branch of the profession, and there can be no doubt that he has produced a book of reference which will be useful to the class he has had in view. Mr. Brown has perhaps done about as much as anyone, not a rare genius, could do in such a case, and his Dictionary will be serviceable to those who are in want of hints and references, and are content with a general idea of a law or legal principle. It is a handy book to have at one's elbow."—*Saturday Review*.

"This book has now been for some time published, and we have had many opportunities of referring to it. We find it an admirable Law Dictionary, and something more, inasmuch as it contains elaborate historical and antiquarian analyses of our legal system under the several headings. The student and the literary man will find the book very useful in reading and writing. Indeed the people who are not lawyers, but who nevertheless feel a desire or are under the necessity to use legal terms, or who meet them in their course of study, cannot do better than obtain a copy of this work and use it judiciously; they will thereby be enabled to avoid the ludicrous errors into which novelists in particular, and public speakers too, are often led by the inappropriate use of terms whose meanings they do not perfectly comprehend."—*Irish Law Times*.

"There are some features which are of unusual interest, such as the accounts of the English courts and legal institutions, which Mr. Brown has furnished in a way unparalleled in any other dictionary."—*Albany Law Journal*.

be a useful book, and is well got up and printed in a large clear type."
—*Solicitors' Journal*.

"It is a good and very sensible and readable book to the practical and common sense English and American lawyer. It takes up a difficult subject, begins at the very beginning, tracing the decisions in the order of time, and showing how they gradually extended a principle here, then another there, until finally a system is built up, somewhat incoherent, but good enough for all practical purposes, and enabling the lawyer, to use our author's words, 'to advise upon Modern Cases.' We have read it with much zest, and greatly admire it. . . . We can recommend it as being an exhaustive compilation."—*The Southern Law Review*.

"Mr. Brown seems admirably adapted to the task of writing on the law of fixtures. He is strongly convinced of the influence of history upon law. In his opening sentence he tells us that 'it has been said of history that it finds its entablature in law; it may conversely be said of law that it finds its explanation in history.' The sentence is a good opening upon a subject which owes so much of its law to arbitrary rules rather than general principles as fixtures. . . . Mr. Brown's seventh and last chapter will be found to contain a most serviceable enumeration of the recent cases, arranged according as the conflict was between landlord and tenant, mortgagor and mortgagee, and so on."—*Law Journal*.

H. BALFOUR BROWNE, of the Middle Temple, Barrister-at-Law, Author of "The Law of Rating," "The Law of Usages and Customs," &c., &c. 8vo. 1876. 7s. 6d.

"This is a work of considerable importance to all Municipal Corporations, and it is hardly too much to say that every member of these bodies should have a copy by him for constant reference. Probably at no very distant date the property of all the existing gas and water companies will pass under municipal control, and therefore it is exceedingly desirable that the principles and conditions under which such transfers ought to be made should be clearly understood. This task is made easy by the present volume. The stimulus for the publication of such a work was given by the action of the Parliamentary Committee which last Session passed the preamble of the "Stockton and Middlesborough Corporations Water Bill, 1876." The volume accordingly contains a full report of the case as it was presented both by the promoters and opponents, and as this was the first time in which the principle of compulsory purchase was definitely recognized, there can be no doubt that it will long be regarded as a leading case. As a matter of course, many incidental points of interest arose during the progress of the case. Thus, besides the main question of compulsory purchase, and the question as to whether there was or was not any precedent for the bill, the questions of water compensations, of appeals from one Committee to another, and other kindred subjects were discussed. These are all treated at length by the Author in the body of the work, which is thus a complete legal compendium on the large subject with which it so ably deals."

"The tables and specimen valuations, which are printed in an appendix to this volume, will be of great service to the parish authorities, and to the legal practitioners who may have to deal with the rating of those properties which are in the occupation of Companies, and we congratulate Mr. Browne on the production of a clear and concise book of the system of Company Rating. There is no doubt that such a work is much needed, and we are sure that all those who are interested in, or have to do with public rating, will find it of great service. "Mr. Campbell, in producing a Compendium of the Roman Law, has gone to the best English works already existing on the subject, and has made excellent use of the materials found in them. The volume is especially intended for the use of students who have to pass an examination in Roman law, and its arrangement with a view to this end appears very good. The existence of text-books such as this should do much to prevent the evil system of cramming."—*Saturday Review*.

"This is a work 'intended,' as the preface declares, 'for those students at the Universities and Inns of Court who have to pass an examination in Roman law.' The plan is certainly very good. The book consists, first, of a compendium or epitome of the Institutes of Justinian, combining therewith, however, a large number of items of Roman law drawn from other sources, such as Gaius or the Digest, and necessary for the full understanding of what Justinian says, or for the full expression of the law on various points left rather incomplete in the Institutes. A considerable number of extracts from Maine, Austin, and other great writers, are interspersed throughout this part of the book, to explain, define, or criticise various important principles and statements.

"The difficulty of writing an epitome which will, at the same time, be full and accurate, is very great, and certainly Mr. Campbell has, throughout the greater portion of the book, performed his task with great success. The difficult and complicated subject of Tutelage, pp. 18-30, may be referred to as a specimen of good work.

"On the whole the Compendium is well done, and will be found of great service by those who would be repelled by the long and tedious works on Justinian's Institutes, consisting of scraps or sections of text and translation, separated by long passages of necessarily disjointed and unsystematic notes. It will fill a place that is really vacant between the more discursive and popular work of Lord Mackenzie, on the one hand, and the excellent but dry and uninteresting works of Harris and Green on the other.

"This volume, in paper, type, and binding (like 'Bellewe's Cases') is a facsimile of the antique edition. All who buy the one should buy the other."—*Canada Law Journal*.

"The success and approbation afforded to our edition of the scarce volume of Reports, 'Bellewe's Cases, temp. Rich. II.' induce us to reprint the rare and interesting volume generally known as 'Choyce Cases in Chancery,' temp. Mary, Elizabeth, and James I. (including 'Practice of the High Court of Chancery unfolded'). Mr. Wallace, in his valuable work, 'The Reporter,' referring to this book, says: 'Like Lambart, Tothill, and a few similar law works, this volume is one which those great cases that occur from time to time, and stimulate inquiry into the very foundations of legal science, will occasionally call forth; and it ought, therefore, to be in every public law-library.'

"In preparing this edition, every care has been taken, by comparison and collation of the Cases, to make it of increased value and authority. Numerous errors have been corrected, and the typography, paper, and binding combine to make it a fitting companion volume to the reprint of 'Bellewe's Cases.'"—*Publishers' Advertisement*.

"Mr. Clarke's accurate and sensible book is the best authority to which the English reader can turn upon the subject of Extradition."—*Saturday Review*.

"The opinion we expressed of the merits of this work when it first appeared has been fully justified by the reputation it has gained. This new edition, embodying and explaining the recent legislation on extradition, is likely to sustain that reputation. . . . There are other points we had marked for comment, but we must content ourselves with heartily commending this new edition to the attention of the profession. It is seldom we come across a book possessing so much interest to the general reader and at the same time furnishing so useful a guide to the lawyer."—*The Solicitors' Journal*.

"The appearance of a second edition of this treatise does not surprise us. It is a useful book, well arranged and well written. A student who wants to learn the principles and practice of the law of extradition will be greatly helped by Mr. Clarke. Lawyers who have extradition business will find this volume an excellent book of reference. Magistrates who have to administer the extradition law will be greatly assisted by a careful perusal of 'Clarke upon Extradition.' This may be called a warm commendation, but those who have read the book will not say it is unmerited. We have so often to expose the false pretenders to legal authorship that it is a pleasure to meet with a volume that is the useful and unpretending result of honest work. Besides the Appendix, which contains the extradition conventions of this country since 1843, we have eight chapters. The first is 'Upon the Duty of Extradition;' the second on the 'Early Treaties and Cases;' the others on the law in the United States, Canada, England, and France, and the practice in those countries."—*The Law Journal*.

"One of the most interesting and valuable contributions to legal literature which it has been our province to notice for a long time, is 'Clarke's Treatise on the Law of Extradition.' . . . Mr. Clarke's work comprises chapters upon the Duty of Extradition; 'Early Treaties and Cases;' History of the Law in the United States, in Canada, in England, in France, &c., with an Appendix containing the Conventions existing between England and Foreign Nations, and the Cases decided thereon. . . . The work is ably prepared throughout, and should form a part of the library of every lawyer interested in great Constitutional or International Questions."—*Albany Law Journal*.

THE TIMES of September 7, 1874, in a long article upon "Extradition Treaties," makes considerable use of this work, and writes of it as "Mr. Clarke's useful Work on Extradition."

STEVENS & HAYNES,

"This interesting volume may briefly be described as an epitome of the principal decisions on Hindu Law passed by all our High Courts. But it gives also a clear and intelligible history of the Hindu customs of Marriage, Adoption, and Partition, with a disquisition on the sources of Hindu law, in the course of which the different authorities are marshalled, and their order of precedence and position in the different schools of Hindu Law pointed out. Apart, altogether, from their professional value, these introductory chapters are interesting to the layman, as presenting a series of curiously exact photographs of every day Hindu life, which are further illustrated by the rulings of the various High Courts. We have only space to direct the readers' attention to the chapters on marriage, and the cases cited, for we made use of this text-book among others in discussing the Hindu marriage laws in our columns last year, Mr. Coghlan is well known as the Judge and Session Judge of Tanna, and as one of the closest students of Hindu life as well as of Hindu law. His volume is already a text-book to the students of Hindu law in England, and should also find a welcome here from practitioners, and even, through the intrinsic interest of the subject and the ability of treatment, from those general readers, who may be interested in Indian matters."—*Times of India*.

"Mr. Coghlan, Judge and Sessions Judge of Tanna, has prepared an epitome of some Hindu law cases as a guide to the law reports and to the standard text-books. "Charities are so numerous, so many persons are directly or indirectly interested in them, they are so much abused, and there is such a growing desire to rectify those abuses, and to call in the aid of the Commissioners for a more beneficial application of their funds, that we are not surprised to receive a second edition of a collection of all the statutes that regulate them, admirably annotated by two such competent editors as Messrs. Cooke and Harwood, whose official experience peculiarly qualifies them for the task.

"It does not profess to be more than a convenient collection of the statutes upon the subject—there is no attempt to produce a treatise.

"The editors place in the hands of the profession that which, after all, the profession most needs—the *ipsissima verba* of the law itself, with the judicial interpretations that have been put upon it, and, where the courts have not decided, the construction of it by minds who are compelled to make it a daily study, and a very copious index. By WALTER ARTHUR COPINGER, Esq., of the Middle Temple, Barrister-at-Law, author of "The Law of Copyright in Works of Literature and Art." Royal 8vo. 1872. 28s.

"To the compilers of the numerous digests and indexes of and to works of law, statutes, and precedents, the mushroom growth of which too frequently redounds to the loss of the editor or compiler, without any utility resulting to those for whose special advantage such publications are nominally designed, the ingenious idea of an Index to Precedents in Conveyancing does not appear to have previously occurred. But Mr. Copinger has not only designed an Index which cannot fail to be of practical use, but has successfully elaborated the work designed by combining a perspicuous order of arrangement with a most exhaustive table of contents, and most copious references to precedents. The Index is arranged in alphabetical order, with subdivisions of an analytical nature, the latter being made throughout subservient to the former.

"There is abundant choice of precedents given under the respective headings and sub-headings: for instance, there are thirteen references to different precedents for an agreement for an ordinary sale of freehold property, precedents of contracts for sale of freeholds, copyholds, leaseholds, mixed property, timber, and miscellaneous (being the analytical subdivisions of the heading 'Contracts for Sale'), numbering together no less than 119. There are 1187 precedents referred to under the heading 'Wills.' *In toto* there are 110 works referred to, and over 10,000 precedents indexed, being forms not only of a modern character, but many belonging to earlier collections, and some framed under Acts of Parliament since repealed, and some virtually the effect of circumstances no longer necessitating a particular form of draft, which the author appears to us

to have wisely thought proper to include where it has seemed to him that they may possibly prove of assistance to the conveyancer, either as a precedent in connection with other matters, or as a guide in constructing an assurance or instrument under the altered state of the law. Many a useful phrase and paragraph may be suggested by or extracted from the drafts of earlier conveyancers, whose virtues of comprehensiveness and precision may well be imitated, while their besetting vices of unnecessary verbosity and unconscionable prolixity are advisedly shunned.

"We cannot close this review of Mr. Copinger's publication better than with the apt quotation with which he inaugurates it: 'Knowledge is of two kinds; we know a subject ourselves, or we know where we can find information upon it.'"—*Law Journal*.

In 1 vol. 8vo. 1870. 18s.

"A work which ought to be on the table of every author, artist, and publisher, of anyone, in fact, whose possessions are in the domain of intellect."—*Art*.

"Copyright was first established in England in respect of literary works; and, by analogy, has since been gradually extended to the numerous subjects mentioned in the title-page to Mr. Copinger's book—a book that is certainly the most complete treatise upon the complex subject of copyright which has ever been published in England. The reader must not be misled by the author's very modest preface. The merits of the work far exceed those of a mere 'Digest of the Copyright Laws.' This any one acquainted with the subject may readily perceive by perusing the first chapter, an 'Historical View of the Copyright Laws,' which evidences an unusual amount of industry and learning upon the subject.

"The clear, accurate, and judicious arrangement of the work (with rare exceptions) is such as to make it of great service not only to lawyers, but also to authors and other proprietors of copyrights, in ascertaining the extent of their rights, and the best means of protecting them. The chapters upon Registration of Copyright, the assignment of such rights, and arrangements between authors and publishers, are especially calculated to be very useful. Loss, injustice, and litigation are continually occurring from authors and proprietors of copyright works not taking the precautions which are *essential* for the protection of their property, or their interest therein.

"As our laws upon that subject at present stand, Mr. Copinger's work is a judicious, clear, and comprehensive arrangement and exposition of the different subjects included in the title-page of his book."—*Athenæum*.

"Mr. Copinger, in a single volume, which includes a reprint of the Copyright Acts, gives us such an exposition of the law as will be useful

to the lawyer, and also enable both authors and publishers to understand their respective rights, and avoid mistakes. . . . We make no question that Mr. Copinger's well devised, well written, and useful treatise will become a standard work."—*Law Journal*.

"The author appears to have paid great attention, and to have acquired a broad grasp of the subject, not only as a lawyer, but as a literary man . . . The book is a thoroughly good one : there is scarcely a decision of any importance left unnoticed, and the law in its bearings is fairly and judiciously treated."—*The Bookseller*.

"In conclusion we refer our readers to this capital book on Copyright. The reader will find in it citations on the latest cases bearing on the subject, Chapters on International Copyright, and the best and newest opinions on the subject, so very important to authors and to publishers.—*The Publisher's Circular*.

"There is no subject on which a practical knowledge is more required than that of title deeds ; and this volume supplies a want. Mr. Copinger has, in his well-written chapters, entered most fully and thoroughly into the special subject matter of his work, and has accordingly produced a book worthy of being used by every careful conveyancer who knows the importance of studying all questions of title."—*The Law*.

"The work opens with a chapter on the custody of title deeds (1) generally, (2) between trustees and *cestuis que trust*, (3) between mortgagee and mortgagor, and (4) miscellaneous. Chapters II. and III. treat of the production of title deeds at law and in equity. In Chapter IV. the author considers the custody and production of title deeds on a sale (1) as relates more particularly to the vendor, and (2) as relates more particularly to the purchaser. Chapter V. treats of the non-production of title deeds ; Chapter VI. of the purchaser's right to the title deeds ; Chapter VII. of attested copies ; whilst Chapter VIII., which will prove

very useful to conveyancers, deals with covenants for the production of deeds. There is an elaborate appendix containing precedents.

"The literary execution of the work is good enough to invite quotation, but the volume is not large, and we content ourselves with recommending it to the profession."—*Law Times*.

"A really good treatise on this subject must be essential to the lawyer; and this is what we have here. Mr. Copinger has supplied a much-felt want by the compilation of this volume. We have not space to go into the details of the book; it appears well arranged, clearly written, and fully elaborated. With these few remarks we recommend this volume to our readers. It may be remarked that there is an appendix added, showing the nature of the evidence required in verification of abstracts, a list of the searches and inquiries which should be made on a purchase, and concluding with a selection of precedents of covenants for production of deeds."—*Law Journal*.

"The instructive chapter which precedes the Cases, entitled 'A proposal for rendering the Laws of England clear and certain,' gives the volume a degree of peculiar interest, independent of the value of many of the reported cases. That chapter begins with words which ought, for the information of every people, to be printed in letters of gold. They are as follows: 'Nothing conduces more to the peace and prosperity of every nation than good laws and the due execution of them.' The history of the civil law is then rapidly traced. Next a history is given of English Reporters, beginning with the reporters of the Year Books from 1 Edw. III. to 12 Hen. VIII.—being near 200 years—and afterwards to the time of the author."—*Canada Law Journal.*

"The reasons which led us to reprint 'Bellewe's Cases,' and 'Choyce Cases in Chancery,' have induced us to continue our re-issue of the Early English Reporters, and to select 'Cunningham's Reports' as the third volume of the series.

"Cunningham—who modestly says in his advertisement, 'As these Cases are published without any name of distinction, and without any recommendation of authority, they have nothing to rely on but their own intrinsic worth'—would doubtless have been much gratified could he have foreseen the demand that has, for a long period, caused his volume of Reports to sell for a high price. But we venture to believe that the ability and care bestowed upon the editing of this edition renders it of far greater value than either of the previous editions. A comparison of the table of cases cited, and of the multitude of references throughout the book, will show what has been done by the present editor in the way of the most careful perusal and verification, when practicable, of every authority referred to by Cunningham. The Table of Principal Matters has also been very materially amplified and corrected.

"The unique and instructive chapter, entitled 'A Proposal for Rendering the Laws of England Clear and Certain,' gives the volume a degree of peculiar interest, independent of the value attaching to many of the reported cases.

'Our law comes thus to be enriched with new thoughts, new discoveries, new arguments, struck out by the invention of our lawyers.' We hope this volume will be considered worthy of the warm eulogy so generously accorded to our previous reprints."—*Publishers' Advertisement*.

DEANE (H. B.), Law of Blockade. 8vo. 1870. 2s. 6d.

DEANE (H. C.), Principles of Conveyancing. An Elementary Work for the use of Students. By HENRY C. DEANE, of Lincoln's Inn, Barrister-at-Law, sometime Lecturer to the Incorporated Law Society of the United Kingdom. 8vo. 18s.

"Mr. Deane is one of the Lecturers of the Incorporated Law Society, and in his elementary work intended for the use of students, he embodies some lectures given at the hall of that society. It would weary our readers to take them over the ground necessarily covered by Mr. Deane. The first part is devoted to Corporeal Hereditaments, and the second to Conveyancing. The latter is prefaced by a very interesting 'History of Conveyancing,' and for practical purposes the chapter (Ch. 2, Part II.) on Conditions of Sale is decidedly valuable. The most recent legislation is handled by Mr. Deane in connexion with the old law, the Judicature Act and the Vendor and Purchaser Act both being considered in this chapter on Conditions of Sale. We might make some interesting quotations, but the work is one which those engaged in conveyancing should purchase and put on their shelves, and welcome it with the recommendations which we have already recorded."—*Law Times*.

"We hope to see this book, like Snell's Equity, a standard class-book in all Law Schools where English law is taught."—*Canada Law Journal*.

"This is, as its author states, a purely elementary work. It may indeed be called the A B C of conveyancing. In the clearest and simplest language the student will find an outline, firstly, of the various forms of ownership in land, and, secondly, of the ordinary modes of conveyances used in transferring such land from one person to another. The second portion is founded upon lectures that were delivered by the author at the Incorporated Law Society, and is accordingly very clear and practical. The whole work is very well and thoroughly done. Mr. Deane has, we believe, succeeded in writing the very simplest work ever published on the abstruse subject of conveyancing; and has by his language and illustrations, explained points of law in a way that cannot be misunderstood. For this reason, and as being the most elementary work combining the elements of real property law with the principles of practical conveyancing, we can heartily recommend it as a first book on the subject of which it treats. As such we should think it would be both worthy and suitable to be named as one of the books that are required to be read as a preparation for the various Law Examinations."—*The Law*.

"We can confidently recommend Mr. Deane's work on the 'Principles of Conveyancing.' It is not exhaustive, and does not pretend to go fully into the laws of trusts, powers, or remainders, but it fully explains the several different legal and equitable estates in land and the tenure of land, and the modes of alienation used in conveyances *inter vivos* and by will. It also fully explains the meaning and value of the several parts of the conveyances, the covenants, conditions, provisos, exceptions and reservations, habendums, and the proper form of recitals,

STEVENS & HAYNES,

DEANE'S Principles of Conveyancing—(*continued*).

&c. &c.—a point frequently neglected in other and more pretentious treatises. It contains excellent chapters on purchase deeds, leases, mortgages, settlements, and wills; and, in addition, Mr. Deane treats of conditions of sale most fully and clearly. It seems essentially the book for young conveyancers, and will, probably, in many cases supplant Williams. It is, in fact, a modern adaptation of Mr. Watkin's book on conveyancing, and is fully equal to its prototype."—*Irish Law Times*.

"A general review of the scope of Mr. Deane's volume and a perusal of several of its chapters have brought us to the conclusion that, though its contents are purely elementary, and it contains nothing which is not familiar to the practitioner, it may be extremely useful to students, and especially to those gentlemen who are candidates for the various legal examinations. There are so many questions set now on case law that they would do well to peruse this treatise of Mr. Deane's, and use it in conjunction with a book of questions and answers. They will find a considerable amount of equity case law, especially in the second part of Mr. Deane's book, which comprises in substance some lectures delivered by the author at the Law Institution."—*Law Journal*.

"As Mr. Deane's work is addressed to the rising generation of conveyancers, 'students entering upon the difficulties of real property law,' it may be presumed that he does not fear the immediate annihilation of that noble science in its traditional forms by any legislative changes. The first part of the volume is composed of a series of chapters on corporeal hereditaments, and the second part of some lectures on conveyancing recently delivered by the author at the Law Institution. It is enough to say that Mr. Deane writes clearly and to the point."—*Saturday Review*.

With an Introduction, containing a History of the Case, and an Examination of the Cases at Law and Equity applicable to it, or illustrating the Doctrine of Commercial Fraud. 8vo. 1870. 10s. 6d.

"It will probably be a very long time before the prosecution of the Overend and Gurney directors is forgotten. Possibly years may elapse before its silent influence ceases to be regarded. However ill-judged the prosecution, and however miserable its failure, there can be no doubt that it was a natural product of the state of our commerce. Consequently it remains as an example and a legal precedent of considerable value. It involved the immensely important question where innocent misrepresentation ends, and where fraudulent misrepresentation begins.

"All who perused the report of this case in the columns of the *Times*, must have observed the remarkable fulness and accuracy with which that duty was discharged; and nothing could be more natural than that the reporter should publish a separate report in book form. This has been done, and Mr. Finlason introduces the report by one hundred pages of dissertation on the general law. To this we shall proceed to refer, simply remarking, before doing so, that the charge to the jury has been carefully revised by the Lord Chief-Justice."—*Law Times*.

"It is well that a report of this celebrated trial, which has attracted so much attention, should be preserved. The questions raised were such as may be raised any day in commercial life. Mr. Finlason's dissertation on the law governing the case is valuable, and his industry is indefatigable. The volume contains 270 pages, and more than one third of the volume is occupied by the editor in a review of the cases, showing what is and what is not commercial fraud: cases at law, cases in equity, and cases in bankruptcy are all made to do tribute. In addition to this, the summing-up of the learned Chief-Justice, revised by himself, gives much additional value to the work. The report should be in the possession, not merely of members of the legal profession concerned in the administration of commercial law, but of bankers, directors of joint-stock companies, and others who, from time to time, are called upon to make annual reports to shareholders of their doings."—*Canada Law Journal*.

By ARTHUR JOHN FLAXMAN, of the Middle Temple, Barrister-at-Law. 8vo. 1875. 6s.

"The complete and correct registration of births and deaths is, for several reasons, a matter of great importance, and it can only be effected by a law that is very simple in its provisions. The work cannot be wholly done by officials, but persons of all classes have to give the needful information. We agree with Mr. Flaxman as to the utility and thoroughness of the Act of 1874, and, with a little zeal in the enforcement of its provisions, the returns of the Registrar-General will be an exact record. It is, perhaps, as lucid as we can expect an Act of Parliament to be; but still it needs a careful study and general knowledge of the pre-existing law to understand all the clauses. *Now Mr. Flaxman's unpretentious but admirable little book makes the duties of all parties under the Act abundantly clear.*

"*Lawyers will find the book not only handy, but also instructive and suggestive. To registrars, and all persons engaged in the execution of the law, the book will be invaluable. The index occupies thirty-five pages, and is so full that information on a minute point can be obtained without trouble. It is an index that must have cost the author much thought and time. The statements of what is to be done, who may do it, and what must not be done, are so clear that it is well nigh impossible for any one who consults the book to err. Those who use 'Flaxman's Registration of Births and Deaths' will admit that our laudatory criticism is thoroughly merited.*"—*Law Journal*.

"Mr. Arthur John Flaxman, barrister-at-law, of the Middle Temple, has published a small work on 'The Law Concerning the Registration of Births and Deaths in England and Wales, and at Sea.' Mr. Flaxman has pursued the only possible plan, giving the statutes and references to

cases. The remarkable feature is the index, which fills no less than 35 out of a total of 112 pages. The index alone would be extremely useful, and is worth the money asked for the work."—*Law Times*.

"We cannot but regard with interest a book which, within moderate compass, presents us with the opinions or *responsa* of such lawyers and statesmen as Somers, Holt, Hardwicke, Mansfield, and, to come down to our own day, Lyndhurst, Abinger, Denman, Cranworth, Campbell, St. Leonards, Westbury, Chelmsford, Cockburn, Cairns, and the present Lord Chancellor Hatherley. At the end of each chapter of the 'Cases and Opinions,' Mr. Forsyth has added notes of his own, containing a most excellent summary of all the law bearing on that branch of his subject to which the 'opinions' refer. . . . Our space precludes us from dwelling upon the contents of this work at any greater length, but we think we have said enough to show that it is worthy of a place on the book-shelves of our statesmen, and all who take an interest in constitutional, or rather, national and colonial questions."—*The Contemporary Review*.

FORSYTH'S Constitutional Law—(continued).

"Mr. Forsyth has largely and beneficially added to our legal stores. His work may be regarded as in some sense a continuation of 'Chalmer's Opinions of Eminent Lawyers.' . . . The constitutional relations between England and her colonies are becoming every day of more importance. The work of Mr. Forsyth will do more to make these relations perfectly clear than any which has yet appeared. Henceforward it will be the standard work of reference in a variety of questions which are constantly presenting themselves for solution both here and in our colonies. . . . Among other questions upon which 'opinions' are given and of which careful summaries and generalisations have been added, by Mr. Forsyth, are those relating to vice-admiralty jurisdiction, and piracy; the prerogatives of the Crown in relation to treasure-trove, land in the colonies, mines, cession of territory, &c.; the power of courts-martial, extra-territorial jurisdiction, allegiance, the *lex loci* and the *lex fori*, extradition, and appeals from the colonies. The volume bears marks of extreme care and regard to accuracy, and is in every respect a valuable contribution to constitutional law."—*Law Magazine and Law Review*.

"We can fairly say we never met a work carried out with more thoroughly conscientious care. . . . And if further evidence of the completeness of the work were required, we should refer to the 25th section of the Companies Clauses Act, 1845, which empowers a Company to sue shareholders for calls. The notes to this section form a better guide to the pleading in such actions than is to be found in Bullen or in Chitty. Looking at the book in its entirety, and looking to the extraordinary fulness of a well-arranged index, we can have no hesitation in giving to

the authors the highest commendation in our power. The work was one which was very much wanted, and the want has been supplied in a manner which must give the book a most extensive sale. The typography and binding are both admirable."—*Law Times*.

"The title of this book is the best possible explanation of its contents. Here we have all the statutes affecting Railway Companies, with the standing orders of Parliament, in a volume exquisitely printed, and of most convenient size and form. We have, also, what in effect to the practitioner is a complete manual of reference of all the decided cases on Railway Law, together with an index of so copious and accurate a nature, as to render the discovery of every section and every authority easy in the highest degree. . . . We find pages of authorities on 'transfer of shares,' 'calls,' 'forfeiture of shares,' 'sci. fa.' 'Lloyd's bonds,' 'contracts by companies,' and 'dividends.' Then comes a mass of matter relating to the voluntary and compulsory acquisition of lands by Railway Companies, while the 'compensation' cases stretch over some fifty pages. So also, under the third statute, there are a dozen pages on the powers and duties of Railway Companies in the construction of their works, while the liability of the companies as carriers of passengers and goods is also elucidated in the most elaborate style. The 'Rating of Railways' adds several pages of authorities. . . . We believe that we have said enough to show that this book will prove to be of pre-eminent value to practitioners, both before Parliamentary committees and in the Courts of Law and Equity."—*Law Journal*.

GREENWOOD (H. C.) and MARTIN (T. C.), *A Magisterial and Police Guide: being the Statute Law, including the Session of 1874, with Notes and References to the most recently decided Cases, relating to the Procedure, Jurisdiction, and Duties of Magistrates and Police Authorities, in the Metropolis and in the Country. With an Introduction showing the General Procedure before Magistrates both in Indictable and Summary Matters.* By HENRY C. GREENWOOD, Stipendiary Magistrate for the District of the Staffordshire Potteries, and TEMPLE C. MARTIN, of the Southwark Police Court. Thick 8vo. 1874. 42s.

"For the form of the work we have nothing but commendation. We may say we have here our ideal law book. It may be said to omit nothing which it ought to contain."—*Law Times*.

"This handsome volume aims at presenting a comprehensive magisterial handbook for the whole of England. The mode of arrangement seems to us excellent, and is well carried out.

"As to the care with which the work has been executed, a somewhat minute examination of three or four of the divisions enables us to speak on the whole favourably."—*Solicitors' Journal*.

"Great pains have evidently been taken in every part of the work to ensure correctness; and this quality, together with that of its great comprehensiveness, can scarcely fail to render this guide to procedure before magisterial and police authorities eminently acceptable to the many classes of persons to whom full and accurate information on the subject it deals with is often of the utmost importance."—*Morning Post*.

"The *Magisterial and Police Guide*, by Mr. Henry Greenwood and Mr. Temple Martin, is a model work in its conciseness, and, so far as we have been able to test it, in completeness and accuracy. It ought to be in the hands of all who, as magistrates or otherwise, have authority in matters of police."—*Daily News*.

"Both to justices and practitioners desirous of obtaining a book of reference giving the present practice of the courts, this book will be found of great service—nay, almost invaluable."—*Liverpool Mercury*.

"Mr. Greenwood, stipendiary magistrate in the Staffordshire Potteries district, and Mr. Martin, of the Southwark Police Court, have produced a portly magisterial handbook applicable to the whole of England. It contains all the statute law relating to the procedure, jurisdiction, and duties of magistrates and police authorities, with notes and references to recent decisions, and appears to be put together, as might be expected from the professional experience of the authors, in a thorough and business-like manner."—*Saturday Review*.

"This work is eminently practical, and supplies a real want. It plainly and concisely states the law on all points upon which Magistrates are called upon to adjudicate, systematically arranged, so as to be easy of reference. It ought to find a place on every Justice's table, and we cannot but think that its usefulness will speedily ensure for it as large a sale as its merits deserve."—*Midland Counties Herald*.

Edited with Notes, References, and a Copious Analytical Index.* 2nd edition, embodying all the Reported Cases to Michaelmas Sittings, 1877, and a Time Table. By WILLIAM DOWNES GRIFFITH, of the Inner Temple, Barrister-at-Law, and a Judge of County Courts; Author of "Griffith's Bankruptcy," &c., and RICHARD LOVELAND LOVELAND, of the Inner Temple, Barrister-at-Law; Editor of "Kelyng's Crown Cases," "Shower's Parliamentary Cases," and "Hall's Essay on the Rights of the Crown in the Seashore," &c. 8vo. 30s.

"Mr. W. Downes Griffith appears to have met with the success which we confidently anticipated for his book when it first came out. His system of annotation remains fuller than that of most of his contemporaries, and rises not unfrequently to the rank of an Excursus on a branch of Law. And in this exhaustive treatment of questions, Mr. Griffith continues to make suggestive remarks on difficulties which still appear to await solution in the construction and practical working of the Acts, as on section 77 of the Act of 1873 and elsewhere. His references to decided cases continue to be extremely full, and have been carried on, together with all the Rules and Orders, down to [and inclusive of] October, 1877—a feature which cannot fail to give Mr. Griffith's book a great advantage in the eyes of the practitioner; coupled as it is with a well-deserved reputation for clearness and accuracy."—*Law Magazine and Review*.

"The amount of labour manifestly expended on this book assuredly deserves success. The interval of two years that has elapsed since the publication of the first edition has indeed produced not only fresh legislation and fresh Rules and Orders, but such a mass of decisions settling and defining the practice under the first Rules and Orders, that a second edition of a work of this character becomes a necessity.

"The same assiduity and elaborate exploration of the subject-matter of his task which characterised Mr. Griffith's first edition is displayed in the additions contained in this new volume. Every reported decision involving points of practice under the Judicature Acts has been embodied, and reference given to *all* the authorities where the cases have been reported. In this last particular the authors deserve the gratitude

BELL YARD, TEMPLE BAR.

GRIFFITH and LOVELAND's Judicature Acts—(*continued*).

and appreciation of those who consult this work, for (as we have often observed) references of cited cases to *all* the authorities is of the utmost consequence to those gentlemen in the legal profession whose libraries are of limited extent. Besides the Judicature Act, 1877, Appellate Jurisdiction Act, 1876, and all the Rules and Orders issued during the past two years, a time-table is added, which gives a synoptical reference to the times within which it is provided matters should be done. Cross references have been numerous inserted. And the index, which we remarked in our review of the first edition was 'remarkable for its unparalleled copiousness,' has been increased from 146 to 165 pages, being also carefully revised, and many of the headings being subdivided so that the complete analysis thus given may facilitate reference to every subject contained in the book.

"So far and with good reason this work is highly commendable. . . .

"An improvement has been effected in this edition in the reprinting some Acts relating to procedure expressly incorporated with the rules; and the Bills of Exchange Act, for instance, is printed *in extenso*.

"The time-table referred to above is in alphabetical order, and not in order of procedure. It appears to have been carefully and accurately compiled, and will probably be a useful feature of this new edition.

"In conclusion, we have only to remark that, as is the case with all Messrs. Stevens and Haynes's publications, the type, paper, and general 'get-up' of the work leave nothing to be desired."—*Law Journal*.

"Mr. Griffith's 'Judicature Acts and Orders,' which satisfied us so thoroughly when it first appeared, has now reached a second edition, brought out under the auspices of the author, now a learned judge of County Courts, and Mr. Loveland, whose edition of Hall's Essay on the Rights of the Crown in the seashore we favourably noticed some time ago. There are several features of this work which must commend it to the practitioner. The sections of the Acts, together with the Orders, are annotated with clearness and brevity—the effect of the cases is given without overloading the book with facts, but where the facts are given they are stated shortly. Another good feature is the form of citation of cases, references being given to all the reports where the cases are to be found. A remarkable feature is the index, which in itself is almost a guide to the practice. We believe the editors when they tell us that every reported case on the Acts is to be found cited in this work; and it is gratifying, in looking at the results at which these cases have arrived, to see what a great advance has been made in settling the practice. It is pretty well known now what pleadings ought to be; the limitation of discovery has been plainly defined; the several divisions have felt and appreciated their respective and collective jurisdictions. Even Order XVI. is beginning to be understood, and to be usefully worked. Indeed, we cannot point to a single branch of the new practice which stands condemned as unworkable. Our modern reform, therefore, is real, and it is certainly beneficent, and depending as it does much upon the decisions of the judges, it is no small advantage that it is so ably explained by such authors and editors as Mr. Griffith and Mr. Loveland."—*The Law Times*.

"We are glad to notice that a new edition of Mr. Griffith's 'Practice under the Judicature Acts' has appeared. At this juncture, on the eve

STEVENS & HAYNES,

GRIFFITH and LOVELAND's Judicature Acts—(continued).

of the coming into operation of the Irish Judicature Act, the work of Messrs. Griffith & Loveland comes most opportunely in aid. Indeed, we think it is in some respects calculated to benefit the Irish even more than the English practitioner. For in England the old system has now definitely given place to the new, and it might be said that there was but little practical advantage to be derived from those elaborate disquisitions on special portions of the system now supplanted by a new development, with which this work abounds; while here, where the task of grafting is only about to begin, those dissertations, most learned and exhaustive as they are, will possess a peculiar value. The Excursus on Discovery and Inspection, for instance, may almost be regarded as a treatise in itself. Nearly as much might be said of the treatment of many other minor topics—*ex. g.*, 'Default of appearance,' 'Leave to defend where writ specially endorsed,' 'Amendment of pleadings,' 'Default of pleading,' 'Appeals,' &c. We observe a large quantity of additional and very exhaustive annotation in the present edition; thus, under the sections and rules dealing with Service of Writs, Service out of the Jurisdiction, Indorsements of Claim, Default of Appearance, Parties, Set off, Default of Defence, Trial, Evidence, Costs, Attachment, Charging Orders, Change of Parties by Death, Interlocutory Orders as to Mandamus, &c. And some of the authors' readings are at once so clear and concise, and likely to prove immediately useful—such as that relating to transfer of pending business—that we should be tempted to quote them if we had more space at our command. Many hints, too, may be derived from this work which may prove serviceable in the preparation of our new Rules; and we hope it may be possible, for instance, to avoid here such conflicts of opinion as have been noted at pp. 169, 253. The annotations in the present edition, on the section providing for the concurrent administration of law and equity, are extremely full and suggestive, and are likely to prove very useful to county court practitioners as well as to practitioners of both branches of the profession in the Supreme Court. A number of additional Statutes and new Rules have been also printed and annotated; all the reported decisions on points of practice have been embodied; an excellent time-table is added to the appendix, giving a synopsis of the times within which all matters have to be done; and the volume concludes with an unparalleled index, enlarged from 146 to 165 pages, and exhibiting numerous improvements on the index to the former edition. And yet, notwithstanding the vast amount of new matter presented, the work is but slightly increased in size—the result of omitting all the repealed sections of the Acts and printing the notes in smaller type. If continued popularity should not await this most practical and exhaustive exposition of the working of the Supreme Court of Judicature Acts and Orders, we can only say that it will not be because the editors have not fulfilled their aim, in rendering it a sure and useful guide to the new procedure."—*Irish Law Times*.

"Mr. Griffith's volume has attained the portly dimensions which seem likely to be characteristic of Judicature books. The editors state that they have embodied every reported decision involving points of practice on the Judicature Acts, and they have also given references to all the reports of the cases. As to the last point (which is really of a great deal more convenience in a work of this kind than is generally supposed) we

BELL YARD, TEMPLE BAR.

GRIFFITH and LOVELAND's Judicature Acts—(*continued*).

can say that the references are most copious, and, so far as we have tested them, most accurate. We are inclined to think, from the tests we have applied, that the other statement of the editors is also correct, and that the practitioner will find a summary of, or reference to, all the cases which have been decided on any particular section or rule. A very important addition has been made in the shape of frequent cross references, and a time-table has been appended. The index, which is really a full analysis of the work, might have been made more convenient by the more frequent adoption of a larger type for the general subdivisions of the more lengthy heads. Both in the index and in many of the notes there appears to us to be unnecessary diffuseness; but much care and industry have been shown in the collection of the cases and the arrangement of the book, and the facilities given by the mode of printing enable the reader to find his way readily to any part of the Acts or Rules he may wish to consult."—*Solicitor's Journal*.

By RICHARD LOVELAND LOVELAND, of the Inner Temple, Barrister-at-Law. 8vo. 1875. 25s.

"This is an interesting and valuable book. It treats of one of those obscure branches of the law which there is no great inducement for a legal writer to take up. Questions of foreshore, when they arise, are sure to have a great deal of law in them; but they are few and far between, and Mr. Loveland can scarcely expect his book to obtain the demand it deserves in this country, although we hope that the well-known *penchant* of American lawyers for subjects with a flavour of legal antiquity will give the publishers a market on the other side of the Atlantic. Mr. Hall, whose first edition was issued in 1830, was a writer of considerable power and method. Mr. Loveland's editing reflects the valuable qualities of the 'Essay' itself. He has done his work without pretension, but in a solid and efficient manner. The 'Summary of Contents' gives an admirable epitome of the chief points discussed in the 'Essay,' and indeed, in some twenty propositions, supplies a useful outline of the whole law. Recent cases are noted at the foot of each page with great care and accuracy, while an Appendix contains much valuable matter; including Lord Hale's treatise *De Jure Maris*, about which there has been so much controversy, and Serjeant Merewether's learned argument on the rights in the river Thames. The book will, we think, take its place as the modern authority on the subject."—*Law Journal*.

"The essay of which this is a reproduction was first published in 1830, and Mr. Loveland has simply supplied annotations and appended Lord Chief Justice Hale's '*De Jure Maris*,' the case of *Dickens v. Shaw*, the speech of Serjeant Merewether in the case of the *Attorney-General v. The Mayor and Corporation of London*, and forms in use by the Board of Trade. Thus we have a very useful compendium upon a branch of law which for a long time has been and still is in a very unsettled state.

"The treatise, as originally published, was one of considerable value, and has ever since been quoted as a standard authority. But as time passed, and cases accumulated, its value diminished, as it was necessary to supplement it so largely by reference to cases since decided. A tempting opportunity was, therefore, offered to an intelligent editor to supply this defect in the work, and Mr. Loveland has seized it, and proved his capacity in a very marked manner. As very good specimens of annotation, showing clear judgment in selection, we may refer to the subject of alluvion at page 109, and the rights of fishery at page 50. At the latter place he begins his notes by stating under what expressions a 'several fishery' has been held to pass, proceeding subsequently to the evidence which is sufficient to support a claim to ownership of a fishery. The important question under what circumstances property can be

acquired in the soil between high and low water mark is lucidly discussed at page 77, whilst at page 81 we find a pregnant note on the property of a grantee of wreck in goods stranded within his liberty.

"It is the only complete book upon a subject of great importance, but which does not come within the regular course of professional study, and therefore requires to be read up when a case having reference to it comes into the solicitor's office.

"Mr. Hanson is peculiarly qualified to be the adviser at such a time. Hence a volume without a rival."—*Law Times*.

"This is a second edition of a work published by Mr. Hanson in 1865. At that time he had enjoyed ample opportunities of becoming familiar with the subject, from being largely engaged as junior counsel for the Crown in cases under the Acts. It does not always follow that a man who has such opportunities will produce a good book; indeed, a man may have a legal subject at his fingers' ends, and yet not be able to arrange his knowledge properly in a book. Mr. Hanson's book, however, was at once admitted to be an extremely serviceable one, and as there have been delivered in the *interim* quite sufficient decisions on the subject-matter to render a new edition desirable, we are very pleased to welcome the present one. Since Mr. Hanson produced his first edition, he has been appointed Comptroller of Legacy and Succession Duties at Somerset House; it might perhaps be said, therefore, that in any case it will be useful to know what is his view of the law, since, right or wrong, practitioners may suppose that his own view is the one which, so far as he is concerned, he will act on. In truth, however, the book is in itself a most useful one; its author knows every in and out of the subject, and has presented the whole in a form easily and readily handled, and with good arrangement and clear exposition."—*Solicitors' Journal*.

HARRIS (S. F.), *Principles of the Criminal Law*. Intended as a Lucid Exposition of the Subject for the use of Students and the Profession. By SEYMOUR F. HARRIS, B.C.L., M.A., of Worcester College, Oxford, and the Inner Temple, Barrister-at-Law; Author of "A Concise Digest of the Institutes of Gaius and Justinian." 8vo. 1877. 20s.

"Mr. Harris has undertaken a work, in our opinion, so much needed that he might diminish its bulk in the next edition by obliterating the apologetic preface. The appearance of his volume is as well timed as its execution is satisfactory. The author has shown an ability of omission which is a good test of skill, and from the overwhelming mass of the criminal law he has discreetly selected just so much only as a learner needs to know, and has presented it in terms which render it capable of being easily taken into the mind. A good example of his mode of treatment is to be found in the portion of the book relating to larceny, a subject of peculiar difficulty, inasmuch as the original idea of that crime has been strangely distorted to suit modern requirements, and the common law, case law, and statute law, in which the doctrine of it is now contained, are curiously interwoven. The first half of the volume is devoted to indictable offences, which are defined and explained in succinct terms; the second half treats of the prevention of offences, the courts of criminal jurisdiction, arrest, preliminary proceedings before magistrates, and modes of prosecution and trial; and a brief epitome of the laws of evidence, proceedings after trial, and summary convictions, with a table of offences, complete the book. The part on procedure will be found particularly useful. Few young counsel, on their first appearance at sessions, have more than a loose and general notion of the manner in which a trial is conducted, and often commit blunders which, although trifling in kind, are nevertheless seriously discouraging and annoying to themselves at the outset of their career. From even such a blunder as that of mistaking the order in which the speeches are made and witnesses examined, they may be saved by the table of instructions given here. A useful addition to the book would be a chapter on the maxims constantly cited in the administration of the law as stating the first principles of justice."—SOLICITORS' JOURNAL.

"This work purports to contain 'a concise exposition of the nature of crime, the various offences punishable by the English law, the law of criminal procedure, and the law of summary convictions,' with tables of offences, punishments, and statutes. At the first blush of the thing one might be tempted to exclaim: 'All this is well-trodden ground. What need, then, can there be for further text-books, treatises, or reference-books?' Well, we think that a very slight examination of Mr. Harris's book will be sufficient to show that the learned author has so treated his subject as to justify this addition to our stock of criminal law-books. We will put the matter in a very simple way. Every year there is a goodly array of young men starting for assizes and sessions, full of hope and fairly stocked with knowledge of civil law. The first brief is pretty sure to be a mild prosecution. But criminal law has not been a theme

STEVENSON'S,

HARRIS'S Criminal Law—(continued).

of instruction in the chambers of pleader or counsel, and the subject is not a familiar one, even after some preparation for the pass examination. In what book is the young barrister to look for a little help and instruction before he starts on his campaign? 'Russell' is too much for him; Sir J. F. Stephen's work is not what he wants. So he does his best with the first 150 pages of 'Archbold,' a wonderful book in its way, but far too much like a lexicon for comfortable reading. Now Mr. Harris offers to all this class of students a fair general view of the criminal law of England in a style which is neither too condensed nor too discursive; and he has managed to have his book so well printed, with pages so neatly spaced, and such noble paper and margins, that the reader is enticed to proceed with his task. Moreover, he has given it a scarlet binding, which is of course emblematical of the subject, and which adds immensely to the outward beauty of the book. The work is divided into four books. Book I. treats of crime, its divisions and essentials; of persons capable of committing crimes; and of principals and accessories. Book II. deals with offences of a public nature; offences against private persons; and offences against the property of individuals. Each crime is discussed in its turn, with as much brevity as could well be used consistently with a proper explanation of the legal characteristics of the several offences. Book III. explains criminal procedure, including the jurisdiction of Courts, and the various steps in the apprehension and trial of criminals from arrest to punishment. This part of the work is extremely well done, the description of the trial being excellent, and thoroughly calculated to impress the mind of the uninitiated. Book IV. contains a short sketch of 'summary convictions before magistrates out of quarter sessions.' It is the merest outline, and might have been omitted without disadvantage. The table of offences at the end of the volume is most useful, and there is a very full index. Altogether we must congratulate Mr. Harris on his adventure."—*Law Journal*.

HARRIS (S. F.), *The Elements of Roman Law. A Concise Digest of the Institutes of Gaius and Justinian, with copious References arranged in Parallel Columns, also Chronological and Analytical Tables, Lists of Laws, &c., &c.* Primarily designed for the use of Students preparing for Examination at Oxford, Cambridge, and the Inns of Court. By SEYMOUR F. HARRIS, B.C.L., M.A., of Worcester College, Oxford, and the Inner Temple, Barrister-at-Law. 8vo. 1875. 10s.

"Mr. Harris's digest ought to have very great success among law students both in the Inns of Court and the Universities. His book gives evidence of praiseworthy accuracy and laborious condensation."—*Law Journal*.

"Mr. Harris deserves the credit of having produced an epitome which will be of service to those numerous students who have no time or sufficient ability to analyse the institutes for themselves."—*Law Times*.

HARRIS's Roman Law—(continued).

"This book contains a summary in English of the elements of Roman Law as contained in the works of Gaius and Justinian, and is so arranged that the reader can at once see what are the opinions of either of these two writers on each point. From the very exact and accurate references to titles and sections given he can at once refer to the original writers. The concise manner in which Mr. Harris has arranged his digest will render it most useful, not only to the students for whom it was originally written, but also to those persons who, though they have not the time to wade through the larger treatises of Poste, Sanders, Ortolan, and others, yet desire to obtain some knowledge of Roman Law."—OXFORD AND CAMBRIDGE UNDERGRADUATES' JOURNAL.

HARRIS (W. A.), Mining Laws of the United States. Titles to Mines in the United States, with the Statutes and References to the Decisions of the Courts relating thereto. By W. A. HARRIS, B.A., Oxon., of Lincoln's Inn, Barrister-at-Law, and of the American Bar. 8vo. 1877. 7s. 6d.

"We have merely sketched the contents of this interesting volume, and though the author apologises in the preface for its incompleteness, we are bound to admit that we cannot suggest any point on which information on this subject could be desired that it has been withheld. Mr. Harris may be credited with having done his best to simplify the American mining laws, and in so doing has earned the thanks of all persons interested in the subject."—*The Mining World*.

"It is carefully and thoroughly written throughout, and the information given, whilst it is brief and free from technicalities, will prove ample for the professional man who may be called upon to transact legal business connected with American mines, and will be found useful and interesting to the general reader."—*The Mining Journal*.

"The author is an English barrister, who is also a member of the American Bar, and he has had much experience in American and Anglo-American Mining Law.

"He has now collated such of the mining laws of the United States as are likely to be of importance to English mining adventurers, who invest in American mines.

"The information is very comprehensive, and seems to embrace all things pertinent to the subject. The case of the "Emma" Mine has drawn much attention to the American mining law, and Mr. Harris' work will be found an excellent exponent."—*London Iron Trade Exchange*.

"This is a most valuable work—indeed we might say indispensable—for legal gentlemen and investors in American land and mineral property, and the author is well qualified to give the information and advice needed."—*The Colliery Guardian*.

MR. INDERMAUR'S BOOKS FOR STUDENTS.

"Mr. Indermaur's books are admirably adapted to the purpose for which they are written, and we heartily recommend them to students and teachers, who will find them exceedingly convenient compendiums of the law."—*American Law Review*.

The Student's Guide to the Judicature Acts, 1873 and 1875, and the Rules thereunder : Being a book of Questions and Answers intended for the use of Law Students. By JOHN INDERMAUR, Solicitor. 8vo. 1875. 6s.

Self-Preparation for the Final Examination. Containing a complete course of Study, with Statutes, Cases, and Questions ; and intended for the use of those Articled Clerks who read by themselves. By JOHN INDERMAUR, Solicitor (Clifford's Inn Prizeman, Michaelmas Term, 1872). 2nd edition. 8vo. 1876. 4s.

An Epitome of Leading Common Law Cases ; with some Short Notes thereon. Chiefly intended as a Guide to "Smith's Leading Cases." By JOHN INDERMAUR, Solicitor. 4th edition. 8vo. 1877. 6s.

"This should be placed in the handy-volume series of law books. Its title expresses its object—that of an Epitome and Guide to Leading Cases. The Cases themselves are stated with admirable brevity and clearness, and the notes turn out to be more full and instructive than their material size would seem to indicate."—*American Law Review*.

An Epitome of Leading Conveyancing and Equity Cases ; with some Short Notes thereon, for the use of Students. By JOHN INDERMAUR, Solicitor. 3rd edition. 8vo. 1877. 6s.

"We have received the second edition of Mr. Indermaur's very useful Epitome of Leading Conveyancing and Equity Cases. The work is very well done."—*Law Times*.

"The Epitome well deserves the continued patronage of the class—Students—for whom it is especially intended. Mr. Indermaur will soon be known as the 'Students' Friend.'"—*Canada Law Journal*.

STEVENS & HAYNES,

INDERMAUR (John), *Principles of the Common Law*. Intended for the Use of Students and the Profession. By JOHN INDERMAUR, Solicitor, Author of "Epitomes of Leading Cases," and other Works. In 1 vol. 8vo. 1876. 20s.

"This work, the author tells us in his Preface, is written mainly with a view to the examinations of the Incorporated Law Society; but we think it is likely to attain a wider usefulness. It seems, so far as we can judge from the parts we have examined, to be a careful and clear outline of the principles of the common law. It is very readable; and not only students, but many practitioners and the public might benefit by a perusal of its pages."—SOLICITORS' JOURNAL.

"Mr. Indermaur has very clear notions of what a law student should be taught to enable him to pass the examinations of the Incorporated Law Society. In this, his last work, the law is stated carefully and accurately, and the book will probably prove acceptable to students."—*Law Times*.

"Mr. Indermaur's book will doubtless be found a useful assistant in the legal pupil room. The statements of the law are, as far as they go, accurate, and have been skilfully reduced to the level of learners. Mr. Indermaur possesses one great merit of an instructor—he is able to bring out the salient points on wide subjects in a telling manner."—*Law Journal*.

"Mr. Indermaur has acquired a deservedly high reputation as a writer of convenient epitomes and compendiums of various branches of the Law for the use of students. Within the limits which the author has assigned to himself, he has certainly given proof of praiseworthy industry, accuracy, and clearness of exposition, which cannot fail to be of the greatest advantage to the law student. The practising solicitor will also find this a very useful compendium. Care has evidently been taken to note the latest decisions on important points of Law. A full and well-constructed Index supplies every facility for ready reference."—*Law Magazine*.

"The works of Mr. Indermaur are the necessary outcome of the existing system of legal education, and are certainly admirably adapted to the needs of students. We observe that, in the preface to his *Principles of the Common Law*, the author announces that he had a collateral object in view—viz., to produce a work useful to the practitioner. To sessional practitioners, and those whose libraries are limited, we have no doubt that this work will prove a useful acquisition; but its special merit appears to us to be that it most adequately achieves that which was the author's principal object—namely, to supply a book upon the subject of Common Law, which, whilst being elementary and readable on the one hand, yet also goes sufficiently into the subject to prepare students for examination. The author, who possesses a well-established reputation as a law tutor, and as an able and indefatigable writer of books for students, certainly knows precisely just what it is that students require, and that desideratum he has fully supplied. We might suppose that the work itself was the didactic embodiment of the prize answers to a voluminous code of examination questions on the subject of common law; and presenting, as it does, a lucid, careful, and accurate

outline of the elementary principles applicable to contracts, torts, evidence, and damages, such a work cannot fail to prove abundantly useful to the student. Works more exhaustive there are, but they are necessarily more expensive: and, at all events, as a preliminary study, Mr. Indermaur's work possesses an independent value. Indeed, the work is on the whole so well executed that we would be glad if we could look forward to the production of a similar work from the same pen hereafter on the principles of equity."—*Irish Law Times*.

"This book will be of infinite service to lawyers practising in the maritime law courts, and to those engaged in shipping. It is rendered more valuable, because heretofore books treating on the law of salvage have been by no means numerous, and what few have been published contain comparatively little information, and that of an unsatisfactory nature ; besides which, they are rapidly becoming obsolete, as the law has been considerably altered, and jurisdiction to try salvage cases given to inferior courts. Mr. Jones's book is a complete guide, and is full of information upon all phases of the subject, tersely and clearly written. It will be quite as useful to, as it is as much needed by, the American lawyer, as the English, because the salvage laws of America and England are much alike, and Mr. Jones makes constant reference

to American authorities. The book is all the more welcome because the subject upon which it treats is but little understood except by a favoured few. Now, however, if interested people remain ignorant, it is their own fault. Mr. Jones has treated a very complicated and difficult subject in a simple and concise manner, and his success is commensurate with his simplicity of style."—*Liverpool Journal of Commerce*.

"An admirable treatise on an important branch of jurisprudence is compiled by Mr. Edwyn Jones, of Gray's Inn, Barrister-at-Law, who, in a compact volume, gives us a very comprehensive statement of 'The Law of Salvage,' as administered in the High Court of Admiralty and the County Courts; with the principal authorities, English and American, brought down to the present time, and an Appendix, containing statutes, forms, tables of fees, &c. Mr. Jones has consulted a wide range of cases, and systematised with much skill and clearness the leading principles deducible from numerous judgments and precedents, both here and in the United States. His work is likely to become a text-book on the law in question."—*Daily News*.

JOYCE (W.), *The Doctrines and Principles of the Law of Injunctions*. By WILLIAM JOYCE, of Lincoln's Inn, Barrister-at-Law. Royal 8vo. 1877. 30s.

"Mr. Joyce, whose learned and exhaustive work on 'The Law and Practice of Injunctions,' has gained such a deservedly high reputation in the Profession, now brings out a valuable companion volume on the 'Doctrines and Principles' of this important branch of the Law. In the present work the Law is enunciated in its abstract rather than its concrete form, as few cases as possible being cited; while at the same time no statement of a principle is made unsupported by a decision, and for the most part the very language of the Courts has been adhered to. Written as it is by so acknowledged a master of his subject, and with the conscientious carefulness that might be expected from him, this work cannot fail to prove of the greatest assistance alike to the Student—who wants to grasp principles freed from their superincumbent details—and to the practitioner, who wants to refresh his memory on points of Doctrine amidst the oppressive details of professional work."—*Law Magazine and Review*.

STEVENS & HAYNES,

JOYCE on Injunctions—(*continued*).

"A work which aims at being so absolutely complete, as that of Mr. Joyce upon a subject which is of almost perpetual recurrence in the Courts, cannot fail to be a welcome offering to the profession; and, doubtless, it will be well received and largely used, for it is as absolutely complete as it aims at being. . . . This work is, therefore, eminently a work for the practitioner, being full of practical utility in every page, and every sentence, of it. . . . In conclusion, therefore, we have to congratulate the profession and the author—the profession on this new acquisition to a digest of the law, and the author on his production of a work of permanent utility and—fame."—*Law Magazine and Review*.

"Mr. Joyce has produced not a treatise but a complete and compendious *exposition* of the law and practice of injunctions both in equity and common law. We propose first to point out the main features of Mr. Joyce's work, and secondly, to sketch the order in which the contents are arranged. The chief feature, and, we may presume to say, the great merit in Mr. Joyce's work is that the propositions, having been severally stated, are respectively substantiated by the cases by which they were originated or have been supported.

"Particular care appears to have been bestowed that no case in the English Courts of Equity where an injunction has formed any material portion of the relief asked for should be omitted. Notice is also taken of the cases on injunctions in the House of Lords, in the Privy Council, and Irish Courts, with the Scotch cases of interdicts in the House of Lords, and of selected American cases.

"Secondly, as to the order of arrangement which Mr. Joyce has adopted, he deals with injunctions under two divisions, viz.: 'Injunctions to stay wrongful acts of a special Nature (not being Proceedings in other Courts),' and 'Injunctions to stay Proceedings in Courts of Law and other Courts.' Under each of these divisions the chapters are headed Real Property (including Leaseholds), Personal Property, Incidents of Property (Real and Personal), Persons and relating to Persons, Corporations, Companies, Injunctions generally. Under the first there is a chapter on Jurisdiction and a chapter on Ecclesiastical Matters, which latter deals admirably with the large power exercised by the Court of Chancery as to burial grounds, churchyards, ministers of chapels, trustees of chapels, &c.

"Part III. is devoted to the practice of the Courts. Mr. Joyce, in ninety pages of his work, enters extensively into details as to evidence, filing the bill, service of the bill, forms of notices, of motions, of injunctions, interim orders, interlocutory injunctions, &c., &c. In fact, *these pages contain an amount of valuable and technical matter nowhere else collected.*

"Part IV. may be termed a novelty, for there is no other work on Injunctions at Common Law. This part, besides containing the Acts of Parliament, which give the Common Law judges the power of awarding injunctions, cites *all* the reported cases on the subject of common law.

"From these remarks it will be sufficiently perceived what elaborate and painstaking industry, as well as legal knowledge and ability, has been necessary in the compilation of Mr. Joyce's work. No labour has been spared to save the practitioner labour, and no research has been omitted which could tend towards the elucidation and exemplification of

the general principles of the Law and Practice of Injunctions."—*Law Journal*.

"He does not attempt to go an inch beyond that for which he has express written authority; he allows the cases to speak, and does not speak for them.

"The work is something more than a treatise on the Law of Injunctions. It gives us the general law on almost every subject to which the process of injunction is applicable. Not only English, but American decisions are cited, the aggregate number being 3,500, and the statutes cited 160, whilst the index is, we think, the most elaborate we have ever seen—occupying nearly 200 pages. The work is probably entirely exhaustive."—*Law Times*.

"Mr. Joyce's work, within the limits which he has assigned himself, is well done. He has been evidently diligent in the collection of cases, and the points decided are stated with accuracy, and with more fulness of detail than in any work on injunctions with which we are familiar. It cannot fail to be useful in instructing practitioners in the proper employment of this much abused method of procedure."—*American Law Review*.

"The law-books of the present day are mostly of two classes : the one written for lawyers, and only to be understood by them ; the other intended for the use of non-professional readers, and generally in the form of handy books. The first, in the majority of cases, is of some benefit, if looked upon merely as a compilation containing the most recent decisions on the subject ; whilst the second only aims, and not always with success, at popularising some particular branch of legal knowledge by the avoidance of technical phraseology.

"It is rarely that we find a book fulfilling the requirements of both classes : full and precise enough for the lawyer, and at the same time intelligible to the non-legal understanding. *Yet the two volumes by Mr. Kay on the law relating to ship-masters and seamen will, we venture to say, be of equal service to the captain, the lawyer, and the consul, in their respective capacities*, and even of interest to the public generally, written as it is in a clear and interesting style, and treating of a subject of such vast importance as the rights and liabilities and relative duties of all, passengers included, who venture upon the ocean ; more than that, we think that any able-seaman might read that chapter on the crew with the certainty of acquiring a clearer notion of his own position on board ship.

"We can make no charge of redundancy or omission against our author ; but if we were called upon to select any one out of the fifteen parts into which the two volumes are divided as being especially valuable, we should not hesitate to choose that numbered three, and entitled 'The Voyage.' There the master will find a succinct and compendious statement of the law respecting his duties, general and particular, with regard to the ship and its freight from the moment when on taking command, he is bound to look to the seaworthiness of the ship, and to the delivery of her log at the final port of destination. In Part IV. his duties are

KAY's Law relating to Shipmasters, &c.—(continued).

considered with respect to the cargo, this being a distinct side of his duplicate character, inasmuch as he is agent of the owner of the cargo just as much as the owner of the ship.

"We can heartily congratulate Mr. Kay upon his success. His work everywhere bears traces of a solicitude to avoid anything like an obtrusive display of his own powers at the expense of the solid matter pertaining to the subject, whilst those observations which he permits himself to make are always of importance and to the point; and in face of the legislation which must soon take place, whether beneficially or otherwise, we think his book, looking at it in other than a professional light, could scarcely have made its appearance at a more opportune moment."—*Nautical Magazine*, July, 1875.

"The Law relating to Shipmasters and Seamen,"—such is the title of a voluminous and important work which has just been issued by Messrs. Stevens and Haynes, the eminent law publishers of London. The author is Mr. Joseph Kay, Q.C., and while treating generally of the law relating to shipmasters and seamen, he refers more particularly to their appointment, duties, rights, liabilities, and remedies. It consists of two large volumes, the text occupying nearly twelve hundred pages, and the value of the work being enhanced by copious appendices and index, and by the quotation of a mass of authorities . . . the work must be an invaluable one to the shipowner, shipmaster, or consul at a foreign port. The language is clear and simple, while the legal standing of the author is a sufficient guarantee that he writes with the requisite authority, and that the cases quoted by him are decisive as regards the points on which he touches. The work is excellently 'got up,' and its appearance is quite consistent with its standard character as a treatise on the law relating to shipmasters and seamen."—*Liverpool Journal of Commerce*.

"The author tells us that for ten years he has been engaged upon it. . . . Two large volumes containing 1181 pages of text, 81 pages of appendices, 98 pages of index, and upwards of 1800 cited cases attest the magnitude of the work designed and accomplished by Mr. Kay.

"Mr. Kay says that he has 'endeavoured to compile a guide and reference book for masters, ship agents, and consuls.' He has been so modest as not to add lawyers to the list of his pupils; but *his work will, we think, be welcomed by lawyers who have to do with shipping transactions, almost as cordially as it undoubtedly will be by those who occupy their business in the great waters.*"—*Law Journal*.

By EYRE LLOYD, of the Inner Temple, Barrister-at-Law. 8vo. 1877. 25s.

"A fourth edition of Mr. Lloyd's valuable treatise has just been published. Few branches of the law affect so many and such important interests as that which gives to private individuals compensation for property compulsorily taken for the purpose of public improvements. The questions which arise under the different Acts of Parliament now in force are very numerous and difficult, and a collection of decided cases, epitomised and well arranged, as they are in Mr. Lloyd's work, cannot fail to be a welcome addition to the library of all who are interested in landed property, whether as owners, land agents, public officers, or solicitors."—MIDLAND COUNTIES HERALD.

"It is only a few months since we reviewed the last edition of this useful work. Mr. Lloyd has, in the present edition, added the cases which have since been decided, and has given a complete set of forms under the Artizans' and Labourers' Dwellings Improvement Act, 1875. The recent cases appear to have been carefully collected, the only omission we have discovered being *Re Milnes* (24 W. R. 98), which should have been mentioned under section 69 of the Lands Clauses Act. We may add that the type and general appearance of the volume are admirable."—*Solicitors' Journal*.

"It is with much gratification that we have to express our unhesitating opinion that Mr. Lloyd's treatise will prove thoroughly satisfactory to the profession, and to the public at large. Thoroughly satisfactory it appears to us in every point of view—comprehensive in its scope, exhaustive in its treatment, sound in its exposition."—*Irish Law Times*.

"In providing the legal profession with a book which contains the decisions of the Courts of Law and Equity upon the various statutes

BELL YARD, TEMPLE BAR.

LLOYD on Compensation—(continued).

relating to the Law of Compensation, Mr. Eyre Lloyd has long since left all competitors in the distance, and his book may now be considered the standard work upon the subject. The plan of Mr. Lloyd's book is generally known, and its lucidity is appreciated; the present quite fulfils all the promises of the preceding editions, and contains in addition to other matter a complete set of forms under the Artizans and Labourers' Act, 1875, and specimens of Bills of Costs, which will be found a novel feature, extremely useful to legal practitioners."—JUSTICE OF THE PEACE.

"The work is one of great value. It deals with a complicated and difficult branch of the law, and it deals with it exhaustively. It is not merely a compilation or collection of the statutes bearing on the subject, with occasional notes and references. Rather it may be described as a comprehensive treatise on, and digest of, the law relating to the compulsory acquisition and purchase of land by public companies and municipal and other local authorities, and the different modes of assessment of the compensation. All the statutes bearing on the subject have been collated, all the law on the subject collected, and the decisions conveniently arranged. With this comprehensiveness of scope is united a clear statement of principles, and practical handling of the points which are likely to be contested, and especially of those in which the decisions are opposed or differently understood."—*Local Government Chronicle*.

LLOYD (E.), *The Succession Laws of Christian Countries, with Special Reference to the Law of Primogeniture as it exists in England.* By EYRE LLOYD, B.A., of the Inner Temple, Barrister-at-Law, Author of "The Law of Compensation under the Lands Clauses Consolidation Acts," &c. 8vo. 1877. 7s.

"Mr. Lloyd has given us a very useful and compendious little digest of the laws of succession which exist at the present day in the principal States of both Europe and America; and we should say it is a book which not only every lawyer, but every politician and statesman, would do well to add to his library."—*Pall Mall Gazette*.

"Mr. Eyre Lloyd compresses into little more than eighty pages a considerable amount of matter both valuable and interesting; and his quotations from Diplomatic Reports by the present Lord Lytton, and other distinguished public servants, throw a picturesque light on a narrative much of which is necessarily dry reading. We can confidently recommend Mr. Eyre Lloyd's new work as one of great practical utility, if, indeed, it be not unique in our language, as a book of reference on Foreign Succession Laws."—*Law Magazine and Review*.

"Mr. Eyre Lloyd has composed a useful and interesting abstract of the laws on the subject of succession to property in Christian countries, with especial reference to the law of primogeniture in England. He points out the error of supposing that there is a general compulsory law of primogeniture in this country. It is only in cases of intestacy that this rule is imposed; and though entails upon the eldest son are to a limited extent permitted, the fact that landed property is sometimes retained in families for many generations is mainly due to the natural

STEVENS & HAYNES,

LLOYD on Succession Laws—(*continued*).

desire of Englishmen to perpetuate land in their families. . . .
Mr. Lloyd also shows that the compulsory division of property involves all the evils without any of the advantages of a perpetual entail, inasmuch as it has a tendency to keep a constantly diminishing inheritance perpetually in the members of the same family."—*Saturday Review*.

"This is a very useful little handy book on foreign succession laws. It contains in an epitomised form information which would have to be sought for through a great number of scattered authorities and foreign law treatises, and will be found of great value to the lawyer, the writer, and the political student."—*Standard*.

"This treatise has not been published before it was wanted. The statutes of Elizabeth against fraudulent conveyances have now been in force for more than three hundred years. The decisions under them are legion in number, and not at all times consistent with each other. The incongruity of the decisions arises in great part from the cause that many of them depend rather upon the finding as to the facts than as to the law, and very many of them are decisions of Courts of Equity, which, unaided by juries, find facts and decide the law applicable to the facts. An attempt to reduce the mass of decisions into something like shape, and the exposition of legal principles involved in the decisions, under any

circumstances, must have been a work of great labour, and we are pleased to observe that in the book before us there has been a combination of unusual labour with considerable professional skill. . . . We cannot conclude our notice of this work without saying that it reflects great credit on the publishers as well as the author. The facilities afforded by Messrs. Stevens & Haynes for the publication of treatises by rising men in our profession are deserving of all praise. We feel assured that they do not lightly lend their aid to works presented for publication, and that in consequence publication by such a firm is to some extent a guarantee of the value of the work published."—*Canada Law Journal*.

"Examining Mr. May's book, we find it constructed with an intelligence and precision which render it entirely worthy of being accepted as a guide in this confessedly difficult subject. The subject is an involved one, but with clean and clear handling it is here presented as clearly as it could be. . . . On the whole, he has produced a very useful book of an exceptionally scientific character."—*Solicitors' Journal*.

REVIEWS OF THIRD EDITION.

"This edition of what has become a standard work has the advantage of appearing under the supervision of the original author as well as of Mr. Lumley Smith, the editor of the second edition. The result is most satisfactory. Mr. Lumley Smith's edition was ably and conscientiously prepared, and we are glad to find that the reader still enjoys the benefit of his accuracy and learning. At the same time the book has, doubtless, been improved by the reappearance of its author as co-editor. The earlier part, indeed, has been to a considerable extent entirely rewritten.

"Upon the general principles, according to which damages are to be assessed in actions of contract, *Hadley v. Baxendale* (9 Ex. 341) still remains the leading authority, and furnishes the text for the discussion contained in the second chapter of Mr. Mayne's book. Properly understood and limited, the rule proposed in that case, although in one respect not very happily worded, is a sound one, and has been repeatedly approved both in England and America. Damages may, according to the judgment of the Court of Exchequer, be recovered if they are such as 'may fairly and reasonably be considered as arising either naturally, *i.e.*, according to the usual course of things from the breach of contract itself, or such as may reasonably be supposed to have been in the contemplation of both parties at the time they made the contract, as the probable result of the breach of it.' There is no difficulty as to the first alternative in principle, although sometimes it may not be very easy to estimate the amount of damage. But the second alternative has given rise to much discussion, and it may be doubted whether the rule so expressed is of much service; for, generally speaking, parties contemplate the performance and not the violation of their contracts. The class of cases which it is intended to cover is that in which a contract is made under special circumstances, and damages which would not arise in the usual course of things from a breach do arise from those circumstances. If such circumstances are not known to the party who breaks the contract, it is clear that he is not liable. If they are known, then, according to *Hudley v. Baxendale*, he would be liable, since the resulting damage must be held within his contemplation, and so, *in that case*, the natural consequence of the breach. This proposition, however, must now be taken with considerable modification. The subsequent decisions, which are concisely summarised by Mr. Mayne, have established that mere knowledge of special circumstances is not enough, unless it can be inferred from the whole transaction that the contractor consented to become liable to the extra damage. This limitation is obviously just, especially in the case of persons, such as common carriers, who have no option to refuse the contract. Mere knowledge on their part of special circumstances ought not, and, according to the *dicta* of the judges in the Exchequer Chamber in *Horne v. Midland Railway Company* (21 W. R. 481, L. R. 8 C. P. 131), would not involve the carrier in additional responsibility. Mr. Mayne's criticism of the numerous cases in which this matter has been considered leaves nothing to be desired.

MAYNE on Damages—(continued).

and the rules he deduces therefrom (pp. 32, 33) appear to us to exhaust the subject.

"Mr. Mayne's remarks on damages in actions of tort are brief. We agree with him that in such actions the courts are governed by far looser principles than in contracts; indeed, sometimes it is impossible to say they are governed by any principles at all. In actions for injuries to the person or reputation, for example, a judge cannot do more than give a general direction to the jury to give what the facts proved in their judgment require. And, according to the better opinion, they may give damages 'for example's sake,' and mulct a rich man more heavily than a poor one. In actions for injuries to property, however, 'vindictive' or 'exemplary' damages cannot, except in very rare cases, be awarded, but must be limited, as in contract, to the actual harm sustained.

"The subject of remoteness of damage is treated at considerable length by Mr. Mayne, and we notice that much new matter has been added. Thus the recent case of *Riding v. Smith* (24 W. R. 487, 1 Ex. D. 91) furnishes the author with an opportunity of discussing the well-known rule in *Ward v. Weeks* (7 Bing. 211) that injury resulting from the repetition of a slander is not actionable. The rule has always seemed to us a strange one, if a man is to be made responsible for the natural consequences of his acts. For every one who utters a slander may be perfectly certain that it will be repeated.

"It is needless to comment upon the arrangement of the subjects in this edition, in which no alteration has been made. The editors modestly express a hope that all the English as well as the principal Irish decisions up to the date have been included, and we believe from our own examination that the hope is well founded. We may regret that, warned by the growing bulk of the book, the editors have not included any fresh American cases, but we feel that the omission was unavoidable. We should add that the whole work has been thoroughly revised."—*Solicitors' Journal*.

PEMBERTON on Judgments and Orders. Being a Treatise upon the Judgments, Decrees, and Orders of the Court of Appeal and High Court of Justice, chiefly in reference to Actions assigned to the Chancery Division. With complete Forms and Orders. By LOFTUS LEIGH PEMBERTON, one of the Registrars of the Supreme Court of Judicature, Author of "The Practice in Equity by way of Revivor and Supplement." 2nd edition, considerably enlarged. One thick vol., royal 8vo, of nearly 1000 pages. 1877. 50s.

"This is a work with an unpretending title, which in reality contains much more than would naturally be inferred from its title page. . . . The work before us contains, not only a copious and well-selected assortment of precedents, taken in every instance from orders actually

made (and with proper references to the reports in all instances of reported cases), but also a series of notes, in which the result of the leading cases is succinctly given in highly-convenient, though somewhat fragmentary, form; by the light of which the practitioner will, in all ordinary cases, be easily able to adapt the apposite precedent to the general circumstances of his own case. We consider the book one of great merit and utility, and we confidently recommend it to the consideration of the Profession."—*Solicitors' Journal*.

"This volume, Mr. Pemberton tells us, is the result of labour commenced so long ago as 1869. It has had the benefit, therefore, of patient care, and patience and care having been backed up by extensive knowledge and keen discrimination, a work has been produced which, whilst it is not likely to bring its author any high reward, must permanently record his name in legal literature, and prove to the Profession and the Bench a very decided acquisition.

"Mr. Pemberton has digested the cases without expressing any opinion as to their soundness or applicability—not giving head notes, as too many text-writers are fond of doing, without taking the trouble to consider whether the reporter has correctly epitomised the case, but stating in a few words the effect of each decision. This makes the work a compendium of case law on the various subjects comprehended in it. How comprehensive it is we find it impossible accurately to represent to our readers without setting out the table of contents. We have looked through it more than once; we have carefully examined the citations, and we have formed the very highest opinion of the plan of the work and its execution, and we feel that Mr. Pemberton has placed the entire profession under a lasting obligation."—*Law Times*.

"A somewhat hasty investigation of the book has disclosed evidence of the conscientious labour, regard for accuracy, comprehensiveness, and practical aim of the Author. At this transitional period, Mr. Pemberton's work must prove of great value to the Practitioner in both branches of the profession, harmoniously combining, as it does, those portions of the Old Procedure in Chancery left unaffected by the Judicature Acts and Rules, with that large portion of the New Procedure which the Acts and Rules have, without ambiguity, demonstrated."—*Law Magazine and Review*.

"The operation of the Judicature Acts, with the new Rules and Orders, not only made an opportunity for, but even necessitated, a new publication of forms of judgments and orders. We may safely say that Mr. Loftus Leigh Pemberton's work, in our opinion, should take its rank among the most valuable publications that have been issued of late.

Mr. Pemberton's position as one of the registrars of the Supreme Court of Judicature would of itself be a guarantee of the genuineness and correctness of his precedents. The title indicates that his work contains forms of judgments and orders of the Court of Appeal and High Court of Justice, though we must explain that these are chiefly in reference to actions assigned to the Chancery Division. But the scope of the book goes far deeper and wider than its title would intimate; the forms, indeed are very numerous and comprehensive, all such as are likely to be used in the ordinary practice of the Chancery Division

being embodied ; but beyond these, and subjoined thereto, the rules and orders with explanatory notes, and the supplementary treatises on the practice, backed up, in all cases where authorities are needed, by citation of such authorities, compose in themselves a work of paramount importance and of universal utility. A very superficial perusal will satisfy the practitioner that not only all such matters of practice as he could reasonably have expected to be embraced in a book of this kind are comprised therein, but also that nothing which ought to have found place therein is omitted. The ordinary forms of judgments and orders, the nucleus of the book, have in most cases been settled and approved by the judges ; still there is plenty of original matter in this book, and the industry displayed and the amount of knowledge of practice embodied are worthy of the highest encomium. Mr. Herbert Jackson, of the Chancery Registrar's Office, deserves few words of commendation for an admirable index to the work—a feature of the utmost importance.”

REVIEWS.

"This work is one which has naturally carried with it more weight than any other text-book, having been written by two Registrars of the Court of Bankruptcy. In practice it has been found to realise the anticipations formed concerning it, in proof of which we have now in our hands a second edition. Perhaps the most valuable feature of the work is the fulness of the practical details which enable a tyro to transact his business with tolerable security. The first half of the work comprises the Bankruptcy Act and the Debtors Act, which have been carefully and ably noted with all the decisions; and the latter half is devoted mainly to practice and procedure. The Bills of Sale Act and one or two other enactments are incorporated which are frequently consulted by the bankruptcy practitioner. A very elaborate index ends the volume."—*Law Times*.

"The first two hundred pages of the work contain the Bankruptcy Act of 1869, printed in large type; and, where it is necessary, the learned authors have inserted after each section, in smaller type, very copious notes of the law, and all the cases referring to each particular subject. For instance, after section 15, which defines the property of a

ROCHE and HAZLITT's Bankruptcy—(continued).

bankrupt divisible among his creditors, we find more than eight pages of notes and cases showing the present state of the law with reference to order and disposition, bills of sale, &c. Again, after section 72, which confers upon the Court of Bankruptcy full power to deal with and decide (without the intervention of the Courts of Common Law and Chancery) any question which may arise in the course of a bankruptcy, all the cases on the subject are very fully referred to, and the different opinions of the late Lord Chancellor and the Lords Justices in relation to the extension or curtailment of this novel jurisdiction are set out with a precision and minuteness which render any reference to the reports themselves almost unnecessary. In the addenda of cases the recent case of *Ex parte Gordon, in re Dixon*, is mentioned, which decides that when proceedings are instituted in Bankruptcy, and at the same time there is a pending Chancery suit, and the parties to the Bankruptcy and Chancery proceedings are substantially the same, and their rights and liabilities can be equally well ascertained under the bankruptcy as in the Chancery suit, the Court of Bankruptcy has jurisdiction under Section 72 to stay proceedings in the Chancery suit so far as may be necessary. . . . The work before us also contains the Debtors Act of 1869, the Bankruptcy Repeal Act of 1869, the Absconding Debtors Act, 1869, with several other Acts and all the General Rules in Bankruptcy, printed and annotated in the same manner as the principal Act. There is also a very full collection of forms and bills of costs; *but the portion of the work which is decidedly the most novel, and we imagine will prove extremely useful, is that comprised in pages 355—474, which contain an exposition by the authors on the practice on procedure to adjudication, liquidation, and composition with creditors, and on procedure under a debtors' summons. It is not often that a practising lawyer is able to turn to a book on Practice written by the judges of the particular Court to which it relates, and, as it were, stamped with the seal of authority. . . . In conclusion, we have only to say that Messrs. Roche and Hazlitt have appended to their work a very full and copious index, and that we can cordially and conscientiously recommend it to the notice of the legal profession.*—*Law Journal*.

"The first edition of this work, issued shortly after the passing of the Acts of 1869, to meet a pressing demand, consisted of little more than a reprint of the Acts, Rules, and Forms, with a few notes and an index. In the present edition, however, the book has been expanded into a treatise on the law and practice in bankruptcy, and now constitutes a bulky volume of 840 pages. The plan of the authors is to print the sections of the Acts in the order in which they stand in the Statute-book, appending to them notes more or less lengthy. These are followed by chapters on the practice on procedure to adjudication, procedure to liquidation, procedure to composition with creditors, procedure under debtors' summons, costs, and at the close of the work the General Rules, Orders, and Forms are given in full. The design of the authors is stated in the preface to have been 'more especially to render the volume of practical utility to the profession,' by which we understand them to mean that the practitioner should, with the least possible trouble, be able to lay his hand upon the law relating to the particular point as to which he desires information. For this purpose there is doubtless some-

ROCHE and HAZLITT's Bankruptcy—(continued).

thing to be said in favour of the retention of the arrangement of sections adopted in the Bankruptcy Act, 1869—singular and illogical as that arrangement is. Experience has made it tolerably familiar; the practitioner knows his way in the Act, and on many points can recall the number of the section relating to the point under discussion. In the book before us, such a reader is enabled by means of large consecutive figures at the head of each margin to reach the section and cases he requires without the trouble of referring to the index. In the hurry of daily practice this will probably be found no small advantage. In the subsequent chapters on adjudication, liquidation, composition, and debtors' summons, the arrangement adopted is the convenient one for practical purposes of tracing each consecutive step of the procedure, and welding together the provisions of the Acts, Rules, and Forms with the substance of the cases. This appears to us to be successfully accomplished, and the book, as a whole, constitutes a useful digest of the statutory and case law. As regards the former, the work appears to contain every provision relating to or connected with the subject, including even the orders made in December, 1869, transferring business then pending. The cases are taken from a wide range of reports, and include a considerable number cited from MS. notes. Even Lord Westbury's characteristic remarks in *Michael Brown's case* (17 S. J. 310) as to the effect in certain cases of section 23 of the Bankruptcy Act, 1869, find a place in the volume. The index is unusually full, combining both an analysis and index; and lastly, the type and paper are all that can be desired."—*Solicitors' Journal*.

Additional Cases not hitherto reported. Revised and

"Messrs. Stevens & Haynes, the successful publishers of the Reprints
of Bellewe, Cooke, Cunningham, Brooke's New Cases, Choyce Cases in
Chancery, William Kelynge and Kelyng's Crown Cases, determined to
issue a new or fourth Edition of Shower's Cases in Parliament.

"The volume, although beautifully printed on old-fashioned paper, in
old-fashioned type, instead of being in the quarto, is in the more conven-
ient octavo form, and contains several additional cases not to be found
in any of the previous editions of the work.

"These are all cases of importance, worthy of being ushered into the
light of the world by enterprising publishers.

"Shower's Cases are models for reporters, even in our own day. The
statements of the case, the arguments of counsel, and the opinions of the
Judges, are clearly and ably given.

"This new edition with an old face of these valuable reports under the

SIMPSON (A. H.), A Treatise on the Law and Practice relating to Infants. 8vo. 1875. 21s.

"Mr. Simpson's book comprises the whole of the law relating to infants, both as regards their persons and their property, and we have not observed any very important omissions. The author has evidently expended much trouble and care upon his work, and has brought together, in a concise and convenient form, the law upon the subject down to the present time."—*Solicitors' Journal*.

"Its law is unimpeachable. We have detected no errors, and whilst the work might have been done more scientifically, it is, beyond all question, a compendium of sound legal principles."—*Law Times*.

"Mr. Simpson has arranged the whole of the Law relating to Infants with much fulness of detail, and yet in comparatively little space. The result is due mainly to the businesslike condensation of his style. Fulness, however, has by no means been sacrificed to brevity, and, so far as we have been able to test it, the work omits no point of any importance, from the earliest cases to the last. In the essential qualities of clearness, completeness, and orderly arrangement it leaves nothing to be desired.

"Lawyers in doubt on any point of law or practice will find the information they require, if it can be found at all, in Mr. Simpson's book, and a writer of whom this can be said may congratulate himself on having achieved a considerable success."—*Law Magazine*, February, 1876.

"The reputation of 'Simpson on Infants' is now too perfectly established to need any encomiums on our part; and we can only say that, as the result of our own experience, we have invariably found this work an exhaustive and trustworthy repertory of information on every question connected with the law and practice relating to its subject."—*Irish Law Times*, July 7, 1877.

REVIEWS OF THIRD EDITION.

"The second edition of this treatise was noticed in this *Review* in
October, 1872; the first edition had appeared in 1868. We are glad to
see evidence of its growing popularity. As a *second book* in equity we
are inclined to think it is the best which has been published. Mr. Snell's
Treatise presents compactly, and (considering the size of the book) with
remarkable comprehensiveness, the leading points on the various heads
of Equity jurisdiction. Its selection of the most recent Cases is very
valuable for the student, and for the practitioner who desires a convenient
vade-mecum, this book can be safely recommended."—*American Law*
Review, January, 1875.

"We know of no better introduction to the Principles of Equity.
While affording to the Student an insight to principles of which as yet
he is not master, it places at the service of those familiar with Equity,
the most recent cases establishing or qualifying well understood prin-
ciples."—*Canada Law Journal*.

"Equity can never be made easy, nor is it desirable that it should be
so; but in the fact of the large equitable jurisdiction conferred recently
—that is, since 1853—upon Common Law Courts, and the extension of
equitable principles and rules, to the exclusion of Common Law, con-
templated by the Judicature Bill, it behoves every practitioner to know
as much as possible of equity with as little expense of time as possible,
and for this purpose we know of no better work than Mr. Snell's. It
presents in a small compass the substance of 'The Leading Cases,' and
of Story's work on 'Equity Jurisprudence;' while students will be de-
lighted to find clear, logical, and intelligible explanations of its most
mysterious process and development. The work professes to be based on

BELL YARD, TEMPLE BAR.

SNELL'S Principles of Equity—(*continues*).

the lectures of Mr. Birkbeck, but it has now reached its third edition in a few years, and is admirably noted up with the latest decisions and enactments. We find particularly good information concerning the equitable and statutable rights of married women, and the priorities of equitable and legal, registered and unregistered, mortgages. Counsel, attorney, and student, will find it a useful, and especially a *safe* guide in what it professes to teach."—*Irish Law Times*.

"The great merit of the book now under consideration is its scientific arrangement and accuracy. It, therefore, becomes a most excellent guide to those Common Lawyers who have somehow acquired the notion that Equity is a vague term for a sort of natural justice, and that it recognises no rules such as are found in the Common Law. This book is indeed a most praiseworthy and successful attempt to reduce Equity Jurisprudence to a science, and as such deserves every commendation that can be bestowed; for by doing so it makes one more step towards that complete codification of our law which should be the aim and the desire of every true lawyer. To the ordinary student of Equity it is indeed unnecessary for us to say one word in its praise and recommendation. But as every Common Lawyer must before long add to his knowledge some idea of equitable doctrine, it is to them especially that we commend this book. They will find in it the principles of Equity set out and illustrated in a really scientific and, we may say, workmanlike way, and for this reason they will recognise in its method the style of thought and manner to which they have long been accustomed."—*The Law*.

"We have received the third edition of Snell's Equity, by Mr. J. R. Griffith. The statute and case law has been brought down to the time of publication, and this admirable standard work may therefore be used without any more assistance than is afforded by the current reports."—*Law Times*.

EXTRACTS FROM SOME REVIEWS OF THIS WORK.

"We think Mr. Taswell-Langmead may be congratulated upon having compiled an elementary work of conspicuous merit."—*Pall Mall Gazette*.

"It bears marks of great industry on the part of the compiler, and is most completely stocked with all the important facts in the Constitutional History of England, which are detailed with much conciseness and accuracy, . . . and is very full and clear,"—*Spectator*.

"For students of history we do not know any work which we could more thoroughly recommend."—*Law Times*.

"It is a safe, careful, praiseworthy digest and manual of all constitutional history and law."—*Globe*.

"For conciseness, comprehensiveness, and clearness, we do not know of a better modern book than Mr. Taswell-Langmead's 'English Constitutional History.'"—*Notes and Queries*.

"The volume on English Constitutional History, by Mr. Taswell-Langmead, is exactly what such a history should be."—*Standard*.

"As a text-book for students, we regard it as an exceptionally able and complete work."—*Law Journal*.

"Mr. Taswell-Langmead has endeavoured in the present volume to bring together all the most prominent features in the Constitutional History of England, and explain their origin and development. It is possible to gain from a hundred pages of Mr. Langmead's work a knowledge of the growth and progress of the present system, which elsewhere could only be obtained in many volumes."—*Irish Law Times*.

"Mr. Taswell-Langmead has thoroughly grasped the bearings of his subject. It is, however, in dealing with that chief subject of constitutional history—parliamentary government—that the work exhibits its great superiority over its rivals."—*Academy*.

In an introductory essay Mr. Thomas gives a very clear and intelligent

WALKER (W. G.), The Partition Acts, 1868 and 1876. A Manual of the Law of Partition and Sale in Lieu of Partition. With the Decided Cases, and an Appendix containing Decrees and Orders. By W. GREGORY WALKER, of Lincoln's Inn, Barrister-at-Law, B.A., and late Scholar of Exeter College, Oxford, Editor of the Fourth Edition of "Griffith's Married Women's Property Acts." 8vo. 1876. 6s.

"This is a very interesting and praiseworthy little treatise. That such a work has now been published, needs, in fact, only to be announced; for, meeting as it does an undoubted requirement, it is sure to secure a place in the library of every equity practitioner. . . . We are gratified to be able to add our assurance that the practitioner will find that his confidence has not been misplaced, and that Mr. Walker's manual, compact and inexpensive as it is, is equally exhaustive and valuable."—*Irish Law Times*.

"This handy-book contains the above-mentioned Partition Acts, with a manual of the law of partition, and of sale in lieu of partition, and with the decided cases and an appendix containing decrees and orders. There are so many actions under the Partition Acts, that there is little doubt this small volume, containing as it does not merely references to all the reported cases, but the pith of the decisions extracted therefrom, will prove exceedingly useful. The appendix of decrees and orders, taken from the registrar's books kept in the Report Office, will be of great service to solicitors and counsel in settling minutes. Several of the judgments quoted will also help to keep those who have the conduct of partition suits in the right road."—*Law Journal*.

The volumes known as the "Year Books" contain reports in Norman French of cases argued and decided in the Courts of Common Law. They may be considered to a great extent as the "*lex non scripta*" of England, and have been held in the highest veneration by the ancient sages of the law, and were received by them as the repositories of the first recorded judgments and dicta of the great legal luminaries of past ages. They are also worthy of the attention of the general reader on account of the historical information and the notices of public and private persons which they contain, as well as the light which they throw on ancient manners and customs.
